

MARCH 11 -14, ATLANTA 2006

ACC DAILY HIGHLIGHTS **TUESDAY, MARCH 14, 2006**

LATE-BREAKING CLINICAL TRIALS

9:00 AM - 10:30 AM

ACC06: ACC.06 Smaller Trial Late-Breaking Clinical Trials II

Room: B102

Multicenter, Randomized, Placebo-Controlled, Double-Blind Trial of Carvedilol in Children With Heart Failure

Author: Robert Shaddy, University of Utah

Ultrafiltration Versus Intravenous Diuretics for Patients Hospitalized for Acute Decompensated Heart Failure (UNLOAD)

Author: Maria Rosa Costanzo, Midwest Heart Foundation, Illinois

Trial of Preventing Hypertension: Main Results

Author: Stevo Julius, University Of Michigan

A Low Sodium, High Potassium Salt Substitute Substantially Lowers Blood Pressure Levels Among High-Risk Individuals in Rural Northern China

Author: Bruce Neal, The George Institute for International Health, China

2:00 PM - 3:30 PM

ACC.06 and i2 Summit 2006 Late-Breaking Clinical Trials

Room: Hall A2

The Impact of Fondaparinux, a Synthetic Factor Xa Inhibitor on Mortality and Reinfarction in Patients With Acute ST Segment Elevation Myocardial Infarction: Results of the Michelangelo-Organization to Assess Strategies for Ischemic Syndromes (OASIS)-6 Trial

Author: Salim Yusuf, McMaster University, Canada

Enoxaparin Versus Unfractionated Heparin in ST Elevation Myocardial Infarction Patients Treated With Fibrinolysis

Author: Elliott M. Antman, Brigham and Women's Hospital, Massachusetts

Late Clinical Events Related to Late Stent Thrombosis After Stopping Clopidogrel: Prospective Randomized Comparison Between Drug-Eluting Versus Bare-Metal Stenting

Author: Matthias E. Pfisterer, University Hospital Basel, Switzerland

Prospective Randomized Trial of Direct Endomyocardial Implantation of Bone Marrow Cells for Therapeutic Angiogenesis in Coronary Artery Diseases (PROTECT-CAD)

Author: Hung-Fat Tse, Department of Medicine, University of Hong Kong, Queen Mary Hospital, China

CAPTURE 3000: Report Of The Largest US Multicenter Experience In Carotid Stenting For High Surgical Risk Patients
Author: William A. Gray, Guidant Corporation, New York

ACC.06 SPECIAL SESSIONS

7:00 AM – 8:30 AM

ACC06: Controversial Issues in Heart Failure
Room: Auditorium

ACC06: Where Are We With Genetic Screening?
Room: B103

9:00 AM - 10:30 AM

ACC06: Acute Heart Failure Syndromes
Room: Auditorium

ACC06: Home From the Hospital After Acute Coronary Syndrome
Room: Ballrooms 3 & 4

ACC06: Diabetes, Metabolic Syndrome and Cardiovascular Disease: The Cardiologist's Role
Room: B101

ACC06: What to Do When the Evidence Conflicts? An Example in Multivessel Coronary Artery Disease: CABG Versus Percutaneous Coronary Intervention
Room: B103

11:00 AM - 12:00 PM

ACC.06: i2 For Me, Too!: Controversies in Interventional Cardiology
Room: Hall A2

11:00 AM - 12:30 PM

ACC.06: Clinical Controversies: Pharmacology Therapy for Diastolic Heart Failure
Room: Ballrooms 1 & 2

ACC.06: Noninvasive Assessment of Atherosclerotic Burden
Room: B101

ACC.06: The Patient With Acute Ischemic Heart Disease and Chronic Renal Insufficiency
Room: B102

ACC.06: Joint Symposium: ABC/ACC: Health Care Disparities in Ischemic Heart Disease: Race and Gender Issues
Room: B103

ACC.06: Embolic Stroke: Challenging Issues
Room: B401-B402

2:00 PM - 3:30 PM

ACC:06: Controversies in Ischemic Heart Disease: Choosing Medical, Percutaneous or Surgical Approaches
Room: Ballrooms 1 & 2

4:00 PM - 6:00 PM

ACC.06/i2 Summit: Meeting Highlights

Room: Hall A2

i2 SUMMIT SPECIAL SESSIONS

8:00 AM - 10:00 AM

i2 Summit: Platelet Inhibition in the New Century (Phar Therapy) CORE

Room: Hall C3

10:30 AM - 12:00 PM

i2 Summit: Emerging Technologies III

Room: C206

11:00 AM - 12:00 PM

i2 Summit: i2 for Me, Too! Controversies in Interventional Cardiology

Room: Hall C3

4:00 PM - 6:00 PM

ACC.06/i2 Summit: Meeting Highlights

Room: Hall A2

ORAL CONTRIBUTIONS

7:00 AM - 7:15 AM

The Independent and Combined Risks of Diabetes and Non-End-Stage Renal Impairment in Non-ST-Segment Elevation Acute Coronary Syndromes

Author: Shaheeda Ahmed, Brigham & Women's Hospital, Massachusetts

Room: B206

7:15 AM - 7:30 AM

African Americans With Chronic Angina: Risk Factors and Treatment Profiles Compared to Caucasians

Author: George W. Vetrovec, VCU Medical Center, Virginia

Room: B405

8:00 AM - 8:15 AM

Long-Term Adherence to the American College of Cardiology/American Heart Association Class I Post-Discharge Medications and Recommendations Using Multifaceted Medical Therapy in 2287 Patients With Established Coronary Heart Disease: Interim Data From the Clinical Outcomes Utilizing Revascularization and Aggressive Drug Evaluation (COURAGE) Trial

Author: Marcin Dada, Hartford Hospital, Connecticut

Room: B405

8:15 AM - 8:30 AM

Self-Reported Medication Adherence Predicts Cardiovascular Outcomes in Patients With Stable Coronary Disease: The Heart and Soul Study

Author: Anil K. Gehi, Mount Sinai School of Medicine, New York

Room: B405

10:00 AM - 10:15 AM

Increased Dilator Response to Nitrate in Contrast to Decreased Flow-Mediated Dilatation in Migraineurs: An Ultrasonographic Evaluation of Brachial Artery

Author: Ertan Yetkin, Inonu University Faculty of Medicine, Turkey

Room: B314

10:45 AM - 11:00 AM

Obesity Is a Protective Factor for Percutaneous Coronary Intervention With Drug-Eluting Stents: The Overweight Paradox

Author: Salah-Eddine Hassani, Washington Hospital Center, Washington, DC

Room: C207

12:00 PM - 12:15 PM

Prospective Evaluation of New and Old Criteria for the Metabolic Syndrome

Author: Christoph H. Saely, VIVIT Institute, Austria

Room: B405

2:15 PM - 2:25 PM

Enoxaparin Versus Unfractionated Heparin in ST Elevation Myocardial Infarction Patients Treated With Fibrinolysis

Author: Elliott M. Antman, Brigham & Women's Hospital, Massachusetts

POSTER SESSIONS

9:00 AM - 10:00 AM

Job-Strain Induced Workplace Hypertension Is Associated With Obesity and High Normal Blood Pressures at the Physical Checkup

Author: Hirokazu Saruhara, Tokyo Metropolitan Geriatric Hospital, Japan

Room: Hall B1

Effects of Mediterranean Diet or Supplements on Circulating Endothelial Progenitor Cells in Obesity

Author: Markus Porkert, Emory University, Georgia

Room: Hall B1

10:00 AM - 11:00 AM

Statins in Acute Coronary Syndrome: A Meta-Analysis

Author: Jahandar R. Saleh, University of California Los Angeles/West Los Angeles VA,

Room: Hall B1

First Human Experience With a New Left Atrial Pressure Monitoring Device: Validation With Simultaneous Pulmonary Artery Occlusion Pressure in Subjects With Heart Failure

Author: Jay L. Ritzema-Carter, Christchurch Hospital, New Zealand

Room: Hall B1

Prevalence of Metabolic Syndrome in Patients <45 Years Old With Acute Coronary Syndrome Presenting for Emergent Primary Percutaneous Intervention

Author: Eugene H. Chung, Lahey Clinic, Massachusetts

Room: Hall B1

Intravascular Brachytherapy Versus Repeat Drug-Eluting Stenting for the Treatment of Patients With Drug-Eluting Stent Restenosis

Author: Rebecca Torguson, Washington Hospital Center, Washington, DC

Room: Hall B1

Twelve-Month Clinical Results From ENDEAVOR III: A Randomized Comparison of the ENDEAVOR Drug (Zotarolimus) Eluting Stent System Versus CYPHER® in De Novo Native Coronary Lesions

Author: David E. Kandzari, O.L.V. Hospital, Belgium

Room: Hall B1

Does Size Really Matter? A Comparison of Drug-Eluting Versus Bare-Metal Stents at Different Stent Diameters

Author: Douglas L. Kosmicki, LDS Hospital, Utah

Room: Hall B1

Maximum Clot Strength Is a Novel and Highly Predictive Indicator of Restenosis: A Potential Future Measure to Determine Who Needs Antiproliferative Therapy and How Much

Author: Paul A. Gurbel, Sinai Center for Thrombosis Research, Baltimore, MD

Room: Hall B1

11:00 AM - 12:00 PM

Do Electrocardiographic Abnormalities Pose the Same Risk for Women and Men?

Author: Kavita V. Ernst, Stanford University School of Medicine, California

Room: Hall B1

12:30 PM - 1:30 PM

Impact of Age on the Prognostic Value of Cardiopulmonary Exercise Testing in Subjects With Heart Failure

Author: Ross Arena, Virginia Commonwealth University

Room: Hall B1

1:30 PM - 2:30 PM

Risk Score for Prediction of Major Bleeding After Percutaneous Coronary Intervention

Presentation Start/End Time: Tuesday, Mar 14, 2006,

Author: Eugenia Nikolsky, Columbia University Medical Center, New York

Room: Hall B1

Direct and Acute Cardiotoxicity of Ultrafine Air Pollutants

Author: Boris Z. Simkhovich, Good Samaritan Hospital, California

Room: Hall B1

Long-Term Result of Metabolic Syndrome With Patients Undergoing Coronary Artery Bypass Grafting

Author: Kan Kajimoto, Juntendo University, Japan

Room: Hall B1

2:30 PM - 3:30 PM

Blacks Are Less Susceptible to Atrial Fibrillation Despite an Adverse Risk Profile: A Meta-Analysis

Author: Gian M. Novaro, Cleveland Clinic Florida

Room: Hall B1

Risk of Ischemic Stroke in Atrial Fibrillation: Is There an Ethnic Difference in Its Incidence and in the Efficacy of Warfarin?

Author: Albert Y-J Shen, Kaiser Permanente Medical Center, California

Room: Hall B1
