

5th Annual New Approaches and Procedures in Nuclear Cardiology and Cardiac CT: State-of-the-Art Update for Office-Based Practice

Faculty Disclosure/Conflict of Interest Statement

As a provider accredited by the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center (ANCC), the American College of Cardiology Foundation (ACCF) must ensure balance, independence, objectivity and scientific rigor in all of their directly sponsored or jointly sponsored educational activities. Provider(s) and faculty participating in a sponsored activity are required to disclose to the audience any significant financial interests or other relationships he/she or a member of their immediate family may have (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation and (2) with any commercial supporters of the activity. ACCF is committed to providing its learners with high-quality activities and materials that promote improvements and quality in health care and not a specific proprietary business or commercial interest. The intent of this disclosure is not to prevent participation in sponsored educational activities by persons with a financial or other relationship, but rather to provide learners with information on which they can make their own determination whether financial interests or relationships may influence the credited activity. ACCF assesses conflict of interest (COI) with its faculty, planners, managers, staff and other individuals who are in a position to control the content of CME/CE-credited activities. All relevant potential conflicts of interest that are identified are thoroughly vetted through a process that includes course directors and appropriate peer review by education committee chairs/members, for fair balance, scientific objectivity and validity, and patient care and safety recommendations.

ACCF also requires that all faculty disclose their intent to discuss any unlabeled/unapproved uses of drugs and/or devices during their presentations.

Program Directors

Timothy M. Bateman, MD, FACC

Consulting Fees/Honoraria (Modest)

Astellas/CVT; Bracco Diagnostics; Molecular Insights
Pharmaceuticals

Consulting Fees/Honoraria (Significant)

Covidien

Research Grants (Significant)

Bristol-Myers Squibb Company; Bracco Diagnostics;
Philips Medical Systems; Siemens

Royalty Income (Significant)

CVIT

Gary V. Heller, MD, PhD, FACC

Consulting Fees/Honoraria (Modest)

Adenosine Technologies; King Pharmaceuticals

Consulting Fees/Honoraria (Significant)

Bracco Diagnostics; GE Healthcare

Research Grants (Significant)

Bracco Diagnostics; GE Healthcare; Philips Medical
Systems

Nurse Planner

Cathleen Biga, RN, MSN

Equity Interests/Stock Options (Significant)
