

## Faculty Disclosure/Conflict of Interest Statement

As a sponsor accredited by the Accreditation Council for Continuing Medical Education (ACCME), The American College of Cardiology Foundation (ACCF) must ensure balance, independence, objectivity and scientific rigor in all of their directly sponsored or jointly sponsored educational activities. Sponsor(s) and faculty participating in a sponsored activity are required to disclose to the audience any significant financial interest or other relationship he/she or a member of their immediate family may have (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speakers' bureaus, etc.). The intent of this disclosure is not to prevent a faculty member with a significant financial or other relationship from making a presentation or limit their involvement in developing content, but rather to provide learners with information on which they can make their own judgments. It remains for the audience to determine whether the sponsor's or faculty's interests or relationships may influence the credited activity.

ACCF also requires that all faculty disclose their intent to discuss any unlabeled/unapproved uses of drugs and/or devices during their presentations.
