

Leadership Possibilities at ACC

Michael J. Wolk, MD, MACC

AMERICAN
COLLEGE *of*
CARDIOLOGY

- Continuously engage with past and current Emerging Faculty “graduates” in developing programmatic/social activities for the group at the ACC annual sessions. Someone there will be a future ACC president.
- Consider becoming a local practice/organizational leader in the “transformation” to value-added health care by attending the annual legislative meeting. The biggest deficit in American Health Care is the lack of Physician leadership.
- Invite the current President of the ACC to take a hot bath at your home. Amazing things happen then!
