Leading Your Cath Lab Team: Lessons Learned

- Dr. C Michael Valentine FACC (United States)
- Dr. Alejandro Ricalde FACC (México)

ACC Latin America
Conference 2016

1.- Lack of material to work

Lesson learned

- To have "in site storage" with all of the facilities needed with continuous replenishment.

ACC Latin America
Conference 2016

2.- Lack of response to serious complications

Lessons learned

- All the heart team must be trained in ACLS.
- A previously assigned role to attend the cardiac arrest improves the results.

3.- Delay in the attention of non acute patients

Lessons learned

- Establishing a strong relationship with referral centers improve the time and the quality of the attention
