

Cardiovascular Team Professionals:

Join the American College of Cardiology Today!

By becoming a member of the American College of Cardiology (ACC), you join a network of over 50,000 cardiovascular professionals dedicated to providing the highest standards of cardiovascular care. The ACC puts tools, resources and education at your fingertips to help you stay up-to-date on the latest in cardiovascular medicine, and connects you with leading colleagues in the field.

Eligible professionals include:

Nurses, Advanced Practice Nurses, Pharmacists, Technologists, Physician Assistants, Genetic Counselors, Occupational Therapists, Physical Therapists, Dietitians, Exercise Physiologists, Psychologists, & Clinical Social Workers.

Membership is just \$100.

What will you gain when you join?

- A global network of over 50,000 cardiovascular professional peers
- Professional development opportunities
- Access to publications including the JACC journals: *Journal of the American College of Cardiology*, *JACC: Imaging*, *JACC: Interventions* and *JACC: Heart Failure*
- Full access to *CardioSource.org* and *CardioSource* mobile, putting ACC/AHA guidelines, FREE education, clinical content and more in the palm of your hand
- Reduced registration fees for educational courses and educational products
- Information updates based on your preferences, including clinical information in the Cardiovascular Team Section Newsletter (*created by and just for CV team professionals*), advocacy updates and more.
