AMERICAN
COLLEGE of
CARDIOLOGY

Thank you for your interest in holding an independent certified session during ACC.22, the American College of Cardiology's 71st Annual Scientific Session & Expo, April 2 - 4, 2022 in Washington, DC.

An "independent certified session" is any educational program that offers continuing medical education (CME), continuing nursing education (CNE) and/or continuing education (CE) credit; is independently organized and offered by a non-profit organization; and for which no commercial support has been received.

REQUEST PROCESS

Organizations that wish to host an independent certified session must submit an application for an independent certified session by **Friday, December 17, 2021**. The application can be found on page 3 of this document. An application must be submitted for each request to hold an independent certified session. An agenda of the session (outline will be accepted) must accompany each application. An invoice for the session fee of \$1,000 will be sent to the organization. Upon receipt of the fee, applications and program agendas will be reviewed for eligibility by a subset of the ACC.22 Program Committee.

Notification of eligibility to hold an independent certified session will be sent within 10 business days of receipt of the completed application and fees. Plans to reserve function space for the session may not begin until this notification ("Approval Letter") is received.
