LEARN MORE

## ACC.25 offers a multitude of learning opportunities to help you create a full and diverse experience.

When you're not attending sessions, stop by the Expo to visit with **250+ exhibiting companies and organizations** to see the latest advances in pharmaceuticals, imaging, devices, health IT and the services you need to provide high-quality care to your patients.

Take a break in **Heart Park** (#26032) for an opportunity to unwind in a comfortable environment or update your headshot at the **Professional Portrait Studio**. Stop by the **Relax & Recharge Lounge** (#26025) for some puppy love while recharging your mind and mobile device. Check your non-fasting lipid levels, Lp(a), A1C and hs-CRP at the **ASCVD Screening Lab** (#26049). Plus, visit **ACC Central** (Booth #13025) to discover how ACC is helping you transform cardiovascular care for all and purchase your ACC Apparel.

In addition, don't miss the **NINE Learning Destinations** located throughout the Expo! Three **Industry-Expert Theaters, Innovation Stage**, and three **Interactive Learning Labs** offer new and creative ways to learn from our industry partners. Plus, don't miss the **Future Hub**, focused on the latest innovations in digital health, medical devices, and big data, and the **Health Equity Hub**, a space aimed at ensuring equitable cardiovascular care for all through education and collaboration.

**AMERICAN  
COLLEGE of  
CARDIOLOGY®**

ACC.25 Learning Destinations and Prime Time Events are not part of ACC.25, as planned by its Program Committee, and do not qualify for continuing medical education (CME), continuing nursing education (CNE) or continuing education credit (CE).

Information current as of March 4, 2025 and subject to change.  
For the most up to date information, download the ACC.25 app.

## EXPO HOURS

### SATURDAY, MARCH 29

9 a.m. - 4:45 p.m.

#### Expo Breaks

9:30 - 11:30 a.m.

12:30 - 1:30 p.m.

2:30 - 3:30 p.m.

---

### SUNDAY, MARCH 30

9 a.m. - 4:45 p.m.

#### Expo Breaks

9 - 10 a.m.

12:30 - 1:30 p.m.

2:30 - 3:30 p.m.

---

### MONDAY, MARCH 31

9 a.m. - 2 p.m.

#### Expo Breaks

10 - 11 a.m.

Noon - 1 p.m.

# EXPO GUIDE - SATURDAY, MARCH 29

## PRIME TIME EVENTS

6 – 7:30 a.m.

### **4502. Beyond Left Ventricular Hypertrophy in HCM: A Patient Journey to Achieve Equitable Care**

Marriott Marquis Chicago, Grand Horizon C, Level 4

Significant disparities in the healthcare system limit access to specialized care, advanced diagnostics, and novel treatments for hypertrophic cardiomyopathy (HCM), particularly affecting patients in rural, underserved, and minority communities. Barriers such as inadequate referral pathways, insurance coverage issues, and socioeconomic factors delay diagnosis and hinder access to advanced and disease-modifying therapies. Additionally, the underrepresentation of minority populations in HCM clinical trials compromises the applicability of research findings to diverse patient groups, further exacerbating inequities in care. Join our esteemed panel of experts to learn about HCM in underserved and minority populations focusing on key diagnostic challenges, access to medical therapy and emerging treatments, and how to address systemic inequities through shared decision making to improve outcomes and quality of life for all patients with HCM. To learn more visit: [medscape.org/sympo/hcm-equity](https://medscape.org/sympo/hcm-equity).

#### **Carolyn Y. Ho, MD**

Professor of Medicine, Harvard Medical School  
Medical Director, Cardiovascular Genetics Center  
Brigham and Women's Hospital  
Boston, Massachusetts

#### **Nosheen Reza, MD, MS, FACC, FHFSA**

Assistant Professor of Medicine  
Penn Center for Inherited Cardiovascular Disease  
Section of Advanced Heart Failure, Transplantation,  
and Mechanical Support  
University of Pennsylvania  
Philadelphia, Pennsylvania

#### **Sharon Cresci, MD**

Professor of Medicine and Genetics  
Associate Director, WUMS/BJH Hypertrophic Cardiomyopathy Center  
Director, IMPACT (Initiative for Mentoring, Promoting Networking and Advocacy for Cardiology Trainees)  
Washington University  
Cardiovascular Division  
St Louis, Missouri

**Sponsored by an independent educational grant from Cytokinetics**

6:15 – 7:45 a.m.

### **4501. Achieving Next-Level HCM Care and Outcomes With Cardiac Myosin Inhibition: From Long-Term Clinical Evidence to Real-World Data**

Hyatt Regency McCormick Place, Regency Ballroom AB (Second Floor)

Hypertrophic cardiomyopathy (HCM) affects as many as 1 in 200 individuals, with obstructive HCM (oHCM) having been managed historically with therapies directed at symptoms, as well as by invasive procedures used for more severe forms of this progressive disease. Cardiac myosin inhibitors (CMIs), which target the underlying pathophysiology of HCM, have emerged in recent years, improving symptomatic and functional outcomes, reshaping the treatment algorithm, and reducing reliance on surgical interventions. Join us for this expert-led MasterClass & Case Forum to level up your HCM expertise bolstered by accumulating long-term data and real-world experience with innovative approaches to HCM diagnosis and treatment. Learn more and register at: [Peerview.com/25HCM-Live](https://Peerview.com/25HCM-Live)

#### **Milind Desai, MD, MBA, FACC, FAHA, FESC**

Haslam Family Endowed Chair in CV Medicine  
Professor of Medicine  
Cleveland Clinic Lerner College of Medicine  
Vice Chair of Education  
Co-director, Cardiovascular Imaging Laboratories (CT and CMR)  
Director, HCM Center  
Medical Director, Aorta Center  
Heart Vascular Thoracic Institute  
Director of Clinical Operations of Cardiovascular Medicine  
Cleveland Clinic  
Cleveland, Ohio

#### **Anjali Tiku Owens, MD**

Director, Center for Inherited Cardiovascular Disease  
Section of Heart Failure  
Transplantation and Mechanical Circulatory Support  
University of Pennsylvania Perelman School of Medicine  
Philadelphia, Pennsylvania

**Provided by PVI, PeerView Institute for Medical Education in partnership with The Mended Hearts, Inc. This activity is supported by an educational grant from Bristol Myers Squibb.**

---

6:30 – 8:30 p.m.

**4505. Meeting the Challenge: Transforming Patient Care in sHTG and FCS With Novel RNA-Based Therapies**

Hyatt Regency McCormick Place, Prairie Room

Join leading experts at this ACC satellite symposium to explore the latest advancements in RNA-based therapies for severe hypertriglyceridemia (sHTG) and familial chylomicronemia syndrome (FCS). Gain insights into emerging clinical data, patient selection, and the evolving treatment landscape to optimize care for these high-risk patients.

**Christie M. Ballantyne, MD**

**Michael D. Shapiro, DO, MCR, FACC, FAHA**

Fred M. Parrish Professor of Cardiology and Molecular Medicine  
Director, Center for Prevention of Cardiovascular Disease  
Section on Cardiovascular Medicine  
Wake Forest University School of Medicine  
Winston-Salem, North Carolina

*Sponsored by a grant from Ionis Pharmaceuticals, Inc.*

---

7 – 9 p.m.

**4504. RNAi Science & Therapeutic Innovation: Past, Present and Future**

Renaissance Chicago Downtown, Grand Ballroom

Following this interactive symposium, attendees will:

- Understand the historical context and key developments in RNAi science leading to an innovative class of medicines.
- Understand current applications of RNAi therapeutics in diseases with high unmet needs, including ATTR amyloidosis.
- Understand potential future directions for investigational RNAi therapeutics, including hypertension.

*Sponsored by Alnylam Pharmaceuticals*

---

7 – 8:15 p.m.

**4506. Breaking News: Advances in Heart Failure Management**

Marriott Marquis Chicago, Grand Horizon BC

Despite the implementation of guideline-directed medical therapies (GDMT) for heart failure, a persistent and high level of “residual risk” remains, comparable with or even worse than other major cardiovascular diseases. Additionally, many vulnerable patients who are unable to tolerate optimal doses of GDMT, whether due to adverse events or comorbidities, are at even greater risk. In this Medscape Report symposium, our expert faculty will bring you the latest data on emerging therapies for heart failure in a high-energy, newsroom setting. To learn more visit: [medscape.org/symposium/breaking-news-hf](https://medscape.org/symposium/breaking-news-hf)

**Alok S. Patel, MD**

Pediatrician  
Stanford Children’s Health  
Palo Alto, California

**Javed Butler, MD, MPH, MBA**

Distinguished Professor of Medicine  
University of Mississippi  
Jackson, Mississippi  
Maxwell A. and Gayle H. Clappitt Endowed Chair  
President and Chief Research Executive  
Baylor Scott and White Research Institute  
Senior Vice President  
Baylor Scott and White Health  
Dallas, Texas

**Andrew J. Sauer, MD**

Associate Professor  
Saint Luke’s Mid America Heart Institute  
Kansas City, Missouri

**Harriette G.C. Van Spall, MD, MPH**

Associate Professor of Medicine, Division of Cardiology  
Michael G. DeGroote School of Medicine  
McMaster University  
Ontario, Canada

*Sponsored by an independent educational grant from Bayer*

# EXPO GUIDE - SATURDAY, MARCH 29

## FUTURE HUB

### #1082

9:30 - 10 a.m.

#### **8000. Introduction to Future Hub**

This session will introduce the Health Care Innovation Section and Future Hub 2025 and discuss the role of Innovation in ACC over the past 75 years as well as the future of Innovation at ACC for the next 75 years.

**Ami Bhatt, MD, FACC**

Chief Innovation Officer  
American College of Cardiology

**Dipti Itchhaporia, MD, MACC**

Clinical Professor, University of California, Irvine  
Past President, American College of Cardiology  
Board Member, World Heart Federation

**Jennifer Silva, MD, FACC**

Co-Founder and CMO, SentiAR  
Faculty Fellow in Entrepreneurship  
Washington University School of Medicine

10 - 11 a.m.

#### **8001. Successful Implementation of Clinical AI Tools**

This session will focus on the successful implementation of clinical AI tools through a panel-based discussion on challenges overcome, lessons learned and other important implementation science related takeaways. The panelists will discuss their experience championing and incorporating AI tools locally at their institution in the areas of echocardiography, cardiac catheterization, and coronary artery calcium scoring.

**Kartik Agusala, MD, FACC (Moderator)**

Associate Professor  
Department of Internal Medicine, Division of Cardiology  
Medical Director, Nuclear Cardiology  
UT Southwestern Medical Center

**Emeka Anyanwu, MD, MScBMI (Moderator)**

Assistant Professor of Clinical Medicine  
Director, Center for Cardiovascular Informatics  
Physician Lead for Software & Informatics, Center for Health Care Transformation & Innovation  
University of Pennsylvania Perelman School of Medicine

**Ilya Karagodin, MD, FACC, FASE**

Cardiologist at Endeavor Health/NorthShore  
University HealthSystem  
Director of AI and Advanced Analytics  
Clinical Assistant Professor, University of Chicago  
Pritzker School of Medicine

**Ajay Kirtane, MD**

Professor of Medicine  
Director NYP/Columbia Cardiac Catheterization Laboratories  
Chief Academic Officer, Center for Interventional Vascular Therapy  
Columbia University Irving Medical Center

**David Ouyang, MD, FACC**

Assistant Professor, Cardiology  
Smidt Heart Institute and Division of Artificial Intelligence in Medicine  
Cedars-Sinai Medical Center

**Fatima Rodriguez, MD**

Stanford University  
Associate Professor, Medicine-Cardiovascular Medicine  
Section Chief, Preventive Cardiology  
Stanford University

11 – 11:15 a.m.

### 8002. The Potential For Digital Innovation in Cardiovascular Medicine

**C. Michael Gibson, M.S., M.A. (Hon.), MD, FRCP, FAHA, FSCAI, FACC**  
Interventional Cardiologist  
Beth Israel Lahey  
CEO  
Baim Institute for Clinical Research  
(FKA Harvard Clinical Research Institute)  
and PERFUSE  
Professor of Medicine  
Harvard Medical School

*Sponsored by Johnson & Johnson*

11:15 – 11:45 a.m.

### 8003. When Will apo(B) and Lp(a) Measures be Standard of Care? Innovative Evidence From EHR Provider Notes Using Natural Language Processing and Large Language Models

This session will consider how far we are from making apo(B) and Lp(a) measurements standard of care. The speakers will demonstrate the important role that real-world evidence can play in the discussion, sharing research that expands upon the standard claims-EHR linked analyses to include insights from EHR healthcare provider notes with targeted natural language processing queries and AI-assisted large language models.

**Janna Manjelievskaia, PhD, MPH**  
Director, HEOR  
Veradigm

**Elizabeth (Lisa) H. Marchlewicz, PhD, MPH**  
Senior Researcher, RWE  
Veradigm

**Theresa Sudaria, MS**  
Lead Data Scientist  
Veradigm

*Sponsored by Veradigm*

12:40 – 1:20 p.m.

### 8004. Beyond Vitals: A New Physiologic Baseline For Predictive Analytics

New technologies are empowering clinicians to move beyond traditionally measured vitals and an episodic care-based model. This panel of leaders in AI, data science, and medical innovation will share their diverse perspectives on new ways to measure physiologic data, extract actionable insights from unique data streams, and incorporate predictive analytics to improve outcomes.

**Krishna Pundi, MD (Moderator)**  
Fellow, Clinical Cardiac Electrophysiology,  
University of California, San Francisco

**David E. Albert, MD**  
Founder & Chief Medical Officer  
AliveCor

**Rohan Khera, MD, MS**  
Director, Cardiovascular Data Science Lab  
Assistant Professor, Yale School  
of Medicine

**Lisa Shah, MD**  
Chief Medical Officer, Twin Health  
President, Twin Medical Group

**Mintu Turakhia, MD, MAS**  
Chief Medical Officer and Chief Scientific  
Officer, iRhythm  
Professor of Medicine, Stanford University

2:30 – 3:45 p.m.

### 8005. NHLBI Start-Up Innovation Pitch Challenge Competition

Four companies will pitch their ideas to a panel of judges. There will be a judge's award and a people's choice award handed out for this pitch competition. Each company will be given 5 minutes to pitch, and 9 minutes of judges Q&A.

**HESPEROS**  
THE HUMAN-ON-A-CHIP COMPANY

**HUXLEY™**

**PHYSIO**  
**IMAGE**

**VoluMetrix**

#### Kartik Agusala, MD, FACC (Moderator)

Associate Professor  
Department of Internal Medicine,  
Division of Cardiology  
Medical Director, Nuclear Cardiology  
UT Southwestern Medical Center

#### Farzad Azimpour, MD (Judge)

Senior Vice President, Strategic Innovation  
Program Director, Cardiovascular  
Innovation Fellowship  
Advanced Technology Unit  
Edwards Lifesciences

#### Ami Bhatt, MD, FACC (Judge)

Chief Innovation Officer  
American College of Cardiology

#### Tony Das, MD, FACC (Judge)

Founder, Connected Cardiovascular Care  
Associates  
System Chief, Cardiovascular System  
Strategy and Business Development  
Regional Medical  
Director, Peripheral Vascular Interventions,  
Cardiac Innovation and Digital Health  
Baylor Scott and White

#### Jennifer Silva, MD, FACC (Judge)

Co-Founder and CMO, SentiAR  
Faculty Fellow in Entrepreneurship  
Washington University School of Medicine

#### Debbie Lin Teodorescu, MD, MEng, FACC (Judge)

Invasive Cardiologist & Cardiovascular  
Researcher, Pulse Heart Institute/MultiCare  
Visiting Research Scholar, Cedars-Sinai  
Smidt Heart Institute

## HEALTH EQUITY HUB

### #17047

10:30 – 11:30 a.m.

#### **4700. Implementation Science: Best Practices For Health Equity in Cardiovascular Medicine**

Translating evidence-based practices and research into practical clinical settings comes with challenges, and successfully overcoming these obstacles is vital for enhancing healthcare delivery and achieving optimal patient outcomes. Implementation science has emerged as a dynamic field dedicated to developing robust methods that seamlessly integrate evidence-based practices, interventions, and health policies into healthcare and public health frameworks. The primary objective of implementation science is to improve population health outcomes by ensuring that successful interventions are both effective and adaptable to the unique contexts of diverse healthcare settings. This session will feature presentations on principles and concepts of implementation science, followed by case studies and best practices.

**Phillip D. Levy, MD, MPH, FACC**  
(Moderator)

**Demetria M. (McNeal) Bolden, PhD, MBA**  
**Khadijah Breathett, MD, MS, FACC**

12:30 – 1:45 p.m.

#### **4701. Small Focus, Big Impact: Residents Advancing Health Equity in Their Communities Through the ACC Internal Medicine (IM) Cardiology Program's Community Demonstration Projects**

In 2024, the American College of Cardiology (ACC) launched the Community Demonstration Projects (CDP), a pilot program through the Internal Medicine (IM) Cardiology Program. The purpose of CDPs are to provide opportunities to program participants to implement health equity focused, community-based initiatives, and the experience from these projects is meant to strengthen those individuals' cardiology fellowship application and research experience. During this session, the principal investigators will discuss social determinants of health in their community, project design and interventions, and lessons learned. Audience members will have an opportunity to learn about designing programs to address social determinants of health and gaps in care in their community.

**Melvin Echols, MD, FACC (Moderator)**

**Akwasi Aduboffour, MD**

**Alaukika Agarwal, MD**

**Alexandra Millhuff, DO**

2:30 – 3:30 p.m.

#### **4702. Building the Bridge to Better Health: Enhancing Cardiovascular Disease Prevention and Treatment With Community Care Extenders**

Improving cardiovascular health outcomes in underserved populations hinges on the ability of healthcare practitioners to effectively engage with communities through innovative approaches that position communities as essential experts, active stakeholders, and collaborative partners. This panel discussion will highlight the pivotal role of care extenders, such as community health workers, in delivering culturally sensitive education tailored to the specific needs of the community, helping individuals navigate the complex healthcare landscape, and fostering collaboration among community members and health and social services organizations. Panelists will explore opportunities to integrate care extenders into existing and future programs through the framework of the Rural Cardiovascular Health Initiative (RCHI), a collaboration between ACC and the JF Maddox Foundation to improve cardiovascular outcomes in rural New Mexico.

**Thomas M. Maddox, MD, MSc, FACC**  
(Moderator)

**Annette Ansong, MD, FACC**

**Laura Gryder, BAsc**

**Mayra Lovas, MPH, MS**

**Sarah Slone, PhD, DNP, APRN, FNP-BC, CCRN, FACC**

**Thad Waites, MD, MACC**

## INDUSTRY-EXPERT THEATER 1

## #16077

10:30 – 11:30 a.m.

**4001. Innovations in hs-TnI Testing: Transforming Cardiac Care From Bedside to Lab and Beyond**

The first FDA-cleared bedside point-of-care high sensitivity cardiac troponin-I (hs-TnI) assay expands access to fast and accurate MI decisions across diverse settings. This session will explore the integration of POC and central lab hs-TnI, highlighting clinical impact and workflow efficiencies. We will also examine the role of machine learning in cardiac risk stratification and its potential to improve patient outcomes. Join our experts as we discuss the present and future of cardiovascular diagnostics.

**Christopher Davlentes, MD****Gillian Murtagh, MD****Simon Mahler, MD, MS***Sponsored by Abbott*

12:30 – 1:30 p.m.

**4002. Finding Lp(a): “Little” Things, Big Consequences**

A disease state (non-CME), interactive Expert Panel presentation and discussion on lipoprotein(a).

**James Donnelly, PhD, MBA**

Senior Advisor Clinical Laboratories  
Northwell Health

**Nathan D. Wong, PhD**

Professor, Medicine  
University of California, Irvine  
School of Medicine  
Director, UCI Heart Disease Prevention  
Program (Preventive Cardiology)

*Sponsored by Novartis  
Pharmaceuticals Corporation*

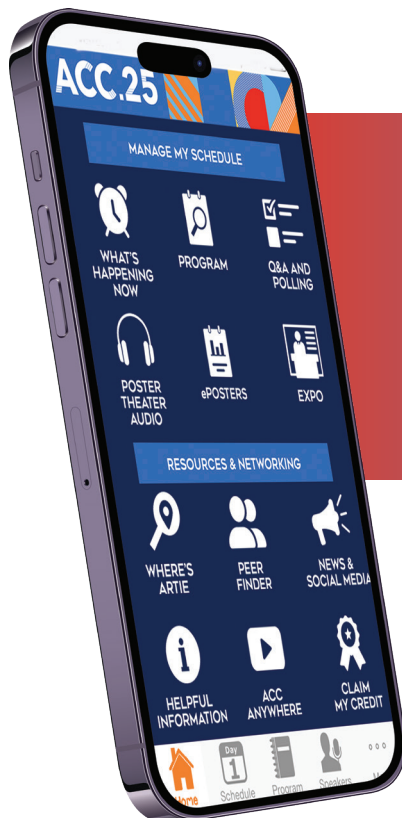

2:30 – 3:30 p.m.

**4003. Learn How to Identify and Help Your Patients With ASCVD Lower Their LDL-C**

Join our experts for an insightful presentation on a treatment option and recommendations from the 2022 ACC Expert Consensus Decision Pathway. Discover the latest on achieving lower LDL-C levels and the lower threshold for managing very high-risk ASCVD patients.

**Peter P. Toth, MD, PhD, FCCP, FESC, FAHA, FACC**

Director of Preventive Cardiology  
CGH Medical Center  
Professor of Clinical Family and Community  
Medicine  
University of Illinois School of Medicine  
Adjunct Professor of Medicine  
Division of Cardiology  
Johns Hopkins University School  
of Medicine

*Sponsored by Amgen***DOWNLOAD THE ACC.25 APP**

Get instant access to sessions, abstracts, exhibitors, maps and more to help you navigate the meeting with ease!

Search ACC.25 in your app store  
or scan the QR code.

# EXPO GUIDE - SATURDAY, MARCH 29

## INDUSTRY-EXPERT THEATER 2

### #20077

10:30 - 11:30 a.m.

#### **4009. The Future of HTN Care is Now: The Symplicity™ Blood Pressure Procedure**

Join us for an insightful session on renal denervation, a groundbreaking complementary option for managing hypertension. Hear from leading experts as they discuss the latest guidelines, clinical evidence, and patient selection strategies. Engage in interactive discussions and real-world case studies that highlight best practices and shared decision-making. Don't miss this opportunity to enhance your knowledge and improve patient care! Learn more and be part of the future of hypertension management!

**Tiffany Randolph, MD (Moderator)**

Cone Health  
Greensboro, NC

**Michael Bloch, MD**

Renown Health  
Reno, NV

**Eric Secemsky, MD, MSc**

Beth Israel Deaconess  
Boston, MA

**Debbie Cohen, MD**

University of Pennsylvania  
Philadelphia, PA

*Sponsored by Medtronic*

12:30 - 1:30 p.m.

#### **4010. Cases, Clues and Collaboration: A Team Approach to Identifying Obstructive Hypertrophic Cardiomyopathy (oHCM)**

During this collaborative, interactive session, our speaker faculty will discuss the spectrum of symptoms and subtle indicators of oHCM that are often overlooked in clinical practice. This multidisciplinary panel will further explore the impact of early recognition and management of oHCM from the perspectives of both practitioners and patients.

**James MacNamara, MD, MSCS**

Assistant Professor Institute of Exercise and Environmental Medicine  
Division of Cardiovascular Medicine  
UT Southwestern University Hospitals

**Jolyn Becerra, BAS, ACS, RDCS, FASE**

Sonographer, Non-Invasive Cardiology  
UT Southwestern University Hospitals

*Sponsored by Cytokinetics*

2:30 - 3:30 p.m.

#### **4011. Health Disparities in hATTR**

This session explores the health disparities associated with hereditary transthyretin amyloidosis (hATTR), a rare genetic condition characterized by the abnormal deposition of amyloid protein in various organs and tissues. We will delve into the epidemiology of hATTR, highlighting how genetic predispositions, geographic distribution, and socioeconomic factors contribute to disparities in diagnosis and treatment access.

**Tony Urey, MD**

Associate Professor of Medicine  
Director, Heart Transplantation  
Director, Cardiac Amyloidosis  
UC San Diego Health

**Kevin M. Alexander, MD**

Assistant Professor of Medicine  
Advanced Heart Failure and Transplant Cardiology  
Stanford Amyloid Center

**Nitasha Sarswat, MD**

Assistant Professor of Medicine  
Department of Medicine  
The University of Chicago

**John Venditto**

US Medical Director, ATTR

*Sponsored by AstraZeneca*

## INDUSTRY-EXPERT THEATER 3

### #24076

10:30 - 11:30 a.m.

#### **4017. Introduction to AMVUTTRA® (vutrisiran)**

*Sponsored by Alnylam Pharmaceuticals*

12:30 - 1:30 p.m.

#### **4018. Managing Coagulopathic Bleeding in Cardiac Surgery With Coagulation Factor Concentrates**

In this CSL Behring-sponsored Industry Expert Theater session, Dr Henderson will review current guidelines and clinical practices for the management of coagulopathic bleeding in cardiac surgery. Dr Henderson will go on to explore the historical safety data for four-factor prothrombin complex concentrate and fibrinogen concentrate before discussing the most recent evidence on the use of coagulation factor concentrates, including prothrombin complex concentrate and fibrinogen concentrate, in cardiac surgery.

**Reney A. Henderson Jr, MD**

Associate Professor, Associate Fellowship Director, Cardiothoracic Anesthesiology  
Department of Anesthesiology,  
Division of Cardiothoracic Anesthesia  
University of Maryland School of Medicine  
Baltimore, MD, USA

*Sponsored by CSL Behring*

2:30 - 3:30 p.m.

#### **4019. Spotlight on a Treatment Option For Pulmonary Arterial Hypertension (PAH)**

Learning Objectives:

1. Understand PAH as a progressive, life-threatening disease with a poor prognosis.
2. Review a treatment option that targets a key pathway implicated in PAH.
3. Review clinical data from a phase 3 trial supporting the approval of a treatment option for appropriate adults with PAH.

**Ioana Preston, MD**

Director of the Pulmonary Hypertension Center  
Lahey Hospital and Medical Center

*Sponsored by Merck & Co*

## INNOVATION STAGE

## #26057

9:45 – 10:15 a.m.

**4201. Partnering For Progress: Implementing AI to Transform the Care Journey For Patients With Cardiac Amyloidosis**

This session focuses on collaborative development of innovative AI-based programs for identifying and tracking patients with amyloidosis and generating structured clinical workflows for treatment and management. The presentation will delve into key considerations for implementation, partnership, and scalability, with the goal of inspiring cardiology colleagues by showcasing practical examples and encouraging them in their own initiatives.

**Leticia A. Funari Ferri, MD, MSc, PhD, MBA**  
US Medical Head, ATTR  
AstraZeneca

**Faraz S. Ahmad, MD, MS**  
Associate Director  
Bluhm Cardiovascular Institute Center for AI  
Northwestern Medicine  
Assistant Professor, Medicine (Cardiology)  
and Preventive Medicine (Biostatistics and Informatics)  
Northwestern University Feinberg School  
of Medicine  
Chicago, IL

*Sponsored by AstraZeneca*

10:45 – 11:15 a.m.

**4202. Transforming Heart Failure Management: Using ZOLL Heart Failure Management System (HFMS) to Reduce Heart Failure Readmissions**

This program will focus on best practices for building a clinical workflow and implementing ZOLL HFMS into the established treatment pathway for patients with pulmonary fluid congestion. The speaker will share experience from his center's experience with patient selection, managing alerts and implementing care changes to reduce HF readmissions.

**Timothy Malinowski Jr., MS, APRN,**  
AGPCNP-BC

*Sponsored by ZOLL*

12:30 – 1 p.m.

**4203. Long-Term Outcomes and Real-World Impact of Cardiac Myosin Inhibition on Adults With Symptomatic NYHA Class II-III Obstructive HCM**

Join this session to review data from long-term and real-world studies on the impact of cardiac myosin inhibition in adult patients with symptomatic NYHA Class II-III obstructive HCM.

**Matthew Gold, MD***Sponsored by Bristol Myers Squibb*

1:30 – 2 p.m.

**4204. Seeing the Unseen: How Quantitative PET Unlocks Hidden Coronary Risk**

A showcase of PET imaging with a focus on myocardial perfusion.

**Marcelo F. DiCarli, MD**  
Brigham and Women's Hospital

*Sponsored by GE Healthcare*

2:30 – 3 p.m.

**4205. Right to Access For Cardiovascular Care Powered by Breakthrough Artificial Intelligence: India**

**Jagat Narula, MD, PhD (Moderator)**  
Executive Vice President and Chief  
Academic Officer, UTHealth, Houston.  
President, World Heart Federation

**Julia Grapsa, MD, PhD**  
Brigham and Woman's Hospital

**Reeta Variyani, MD**  
Sri Sathya Sai Institute of Higher  
Medical Sciences

**Krishna Rao, MD**  
University of Rochester

*Sponsored by Siemens Healthineers*GE HEALTHCARE  
INTERACTIVE LEARNING  
LAB #1

## #16063

9:30 – 10:30 a.m.

**4300. Introduction to Strain Imaging**

**Christos G. Mihos, MD**  
Mount Sinai Heart Institute

11 a.m. – Noon

**4301. Strain in Cardio-Oncology**

**Christos G. Mihos, MD**  
Mount Sinai Heart Institute

2:30 – 3:30 p.m.

**4302. Strain and Myocardial Work in Ischemic Heart Disease**

**Salima Qamruddin, MD**  
Ochsner Health

4 – 4:45 p.m.

**4303. Strain in Hypertrophic Cardiomyopathy**

**Christos G. Mihos, MD**  
Mount Sinai Heart Institute

# EXPO GUIDE - SATURDAY, MARCH 29

## GE HEALTHCARE INTERACTIVE LEARNING LAB #2

### #18063

9 - 10 a.m.

#### **4311. Advancing Cardiac Care: The Vital Role of PET in General Cardiology**

An overview of cardiac PET including principles of cardiac PET MPI, clinical applications, how PET can refine the diagnosis of ischemic heart disease, and new developments that make PET accessible for all cardiology practices.

**Rupa M. Sanghani, MD**  
Rush University Medical Group

10 - 11 a.m.

#### **4312. A Game Changer For Interventional and Heart Failure Specialists**

Unlock the full potential of PET imaging in interventional cardiology and heart failure—improving patient selection, guiding therapy, and enhancing clinical outcomes.

**Mouaz H. Al-Mallah, MD**  
Houston Methodist

11 a.m. - Noon

#### **4313. PET MPI: Impact on Women and Obesity**

Learn how PET MPI enhances diagnostic confidence and improves care for women and patients with obesity, addressing limitations of conventional imaging.

**Panithaya Chareonthaitawee, MD**  
Mayo Clinic

12:30 - 1 p.m.

#### **4314. Basics of AI: Building Blocks of ECG Algorithm (Part 1)**

**Fu Siong Ng, BSc (Hons), MBBS, PhD, FRCP, FESC, FHRS, SFHEA**  
Imperial College London

1 - 1:30 p.m.

#### **4315. Basics of AI: Critical Evaluation of ECG Algorithm (Part 2)**

**Fu Siong Ng, BSc (Hons), MBBS, PhD, FRCP, FESC, FHRS, SFHEA**  
Imperial College London

2:30 - 3 p.m.

#### **4316. AI ECG In Clinical Medicine Part 1: How Clinicians are Using AI in Clinical Medicine**

**Pierre Elias, MD**  
New York-Presbyterian Hospital

**Fu Siong Ng, BSc (Hons), MBBS, PhD, FRCP, FESC, FHRS, SFHEA**  
Imperial College London

3 - 3:30 p.m.

#### **4317. AI ECG in Clinical Medicine Part 2: Challenges With Effective Integration of AI into Clinical Workflow**

**Pierre Elias, MD**  
New York-Presbyterian Hospital

**Kameswari Maganti, MD, FACC, FASE**  
Robert Wood Johnson University Hospital

## ST. FRANCIS HOSPITAL/ OPCI INTERACTIVE LEARNING LAB

### #23017

Join us for an immersive, hands-on experience tailored for interventional cardiologists, general cardiologists, and fellows eager to expand their expertise. The OPCI Learning Lab features ten (10) interactive workshops, each 60-90 minutes long, covering essential and advanced techniques, pivotal clinical trials, and the latest breakthroughs in device and pharmaceutical technology.

9:30 - 11 a.m.

#### **4327. OPCI Hands-On Workshop**

11:30 a.m. - 12:30 p.m.

#### **4328. OPCI Hands-On Workshop**

1 - 2:30 p.m.

#### **4329. OPCI Hands-On Workshop**

3 - 4:30 p.m.

#### **4330. OPCI Hands-On Workshop**

## CASE BASED DISCUSSION ROOM

### Room N136

2:30 - 3:20 p.m.

#### 4600. Cracking the Case: Challenging Decisions in the Management of Heart Failure in ATTR-CM

Dynamic case-based discussion exploring challenging clinical scenarios to enhance understanding and management of patients with heart failure due to ATTR-CM. This program will not involve discussion of specific products, and it does not offer continuing Medical Education credit.

##### Ahmad Masri, MD, MS

Cardiomyopathy Section Head  
Director, Hypertrophic Cardiomyopathy  
Center and Cardiac Amyloidosis Program  
Associate Professor of Medicine  
Oregon Health & Science University

##### Mazen Hanna, MD

Co-Director, Amyloidosis Center  
Section of Heart Failure and Cardiac  
Transplant  
Cleveland Clinic

*Sponsored by Pfizer*

## PARTICIPATE IN THE FUN AT

# ACC.25

Take part in fun and friendly competitions with your peers and work your way up the leaderboard for a chance to win prizes in the Where's Artie Scavenger Hunt and the CardioSmart Wellness Challenge!

### Where's Artie Scavenger Hunt

Select the **Where's Artie** icon in the ACC.25 app to find Artie's location. When you find him in various sessions or locations, scan the QR code to collect points. The top 3 winners will receive complimentary registration to ACC.26 in New Orleans and the next 25 winners will receive a Where's Artie coffee mug!

### CardioSmart Wellness Challenge

Track your steps using your Fitbit, Apple Watch, Garmin or step tracker on your mobile device. Scan the QR code or visit [hekahealth.com/acc25](https://hekahealth.com/acc25) to sign up! Plus, stop by the check-in desk on the Grand Concourse, Level 3 to learn more and see who's setting the pace. Work your way up the leaderboard to win prizes. The Wellness Challenge starts at noon on Saturday and ends at noon on Monday.

Supported by:

# EXPO GUIDE - SUNDAY, MARCH 30

## PRIME TIME EVENTS

5:30 – 7:45 a.m.

### **4509. Title to be Announced**

*Sponsored by Viatris*

5:45 – 7:45 a.m.

### **4508. Do it Better: Raising the Bar in Heart Failure Care With Practical Strategies For Treatment With SGLT2 Inhibitors**

Hyatt Regency McCormick Place, Prairie Room

Join leading experts at this live satellite symposium at ACC.25, focusing on addressing clinical gaps in heart failure management, evaluating the benefits of SGLT2 inhibitors, and providing practical strategies for their integration into guideline-directed therapy to improve cardiovascular outcomes across the spectrum of left ventricular ejection fraction.

#### **Javed Butler, MD, MPH, MBA**

President of the Baylor Scott and White Research Institute  
Senior Vice President for the Baylor Scott and White Health  
Maxwell A. and Gayle H. Clappitt Endowed Chair  
Dallas, Texas

Distinguished Professor of Medicine  
University of Mississippi  
Jackson, Mississippi

#### **Ty J. Gluckman, MD, MHA**

Medical Director  
Center for Cardiovascular Analytics, Research, and Data Science (CARDS)  
Providence Heart Institute  
Providence Health System  
Portland, Oregon

*Sponsored by an independent medical educational grant from Boehringer Ingelheim Pharmaceuticals, Inc. and Eli Lilly and Company*

6 – 7:30 a.m.

### **4507. Teaming Up in the Race to Conquer Hypertension Management**

Marriott Marquis Chicago, Grand Horizon C, Level 4

Hypertension (HTN) is the most common risk factor for cardiovascular (CV) morbidity and mortality worldwide, affecting nearly 1.28 billion adults. In the United States, almost half of the adult population has HTN, and the condition is uncontrolled in more than three-quarters of these individuals. Furthermore, more than 33 million adults in the United States have uncontrolled HTN despite being treated with antihypertensive medications. The persistent high prevalence of uncontrolled HTN not only puts patients at increased risk for CV events, but also contributes to higher healthcare costs due to the need for more intensive medical interventions and hospitalizations. In this engaging virtual race our panel of experts will present real world patient cases and request your input on clinical decisions on the diagnosis and management of uncontrolled/resistant HTN, current treatment strategies, and where new therapies fit into clinical practice. Join us for a fun learning experience and lead your team to victory! To learn more visit: [medscape.org/sympo/resistant-hypertension](https://medscape.org/sympo/resistant-hypertension)

#### **Keith C. Ferdinand, MD, FACC, FAHA, FASPC, FNLA, FPCNA**

Gerald S. Berenson Endowed Chair in Preventative Cardiology  
Professor of Medicine,  
Tulane University School of Medicine  
New Orleans, Louisiana

#### **Alexander Blood, MD**

Associate Director, Accelerator for Clinical Transformation  
Brigham and Women's Hospital  
Instructor, Department of Medicine  
Harvard Medical School  
Medical Director, Cardiovascular Critical Care Unit  
Newton Wellesley Hospital  
Boston, Massachusetts

#### **Markus P. Schlaich, MD**

Winthrop Professor  
Dobney Chair in Clinical Research  
School of Medicine  
Royal Perth Hospital Unit

*Sponsored by an independent education grant from Idorsia*

6:30 – 8:15 p.m.

#### **4510. Referral of Patients With Severe Aortic Stenosis: Are the Pathways Changing?**

Hyatt Regency McCormick Place, Prairie Room, 2nd Floor

This symposium features a roundtable discussion among front-line researchers regarding the latest clinical data in the management of severe aortic stenosis. The expert faculty will discuss how these findings may impact patient pathways—including the benefits of prompt referral and early intervention to achieve optimal outcomes in this challenging patient population.

##### **Sreekanth Vemulapalli, MD**

Associate Professor of Medicine  
Medical Director, Duke Echo Lab and Cardiac Diagnostic Unit  
Duke Clinical Research Institute  
Duke-Margolis Institute for Health Policy  
Durham, NC

##### **Sammy Elmariah, MD, MPH**

Chief, Interventional Cardiology  
Director, UCSF Cardiac Catheterization Laboratory  
Associate Professor of Medicine  
University of California San Francisco  
San Francisco, CA

##### **Philippe G  n  reux, MD**

Medical Director, Structural Heart Program  
Gagnon Cardiovascular Institute,  
Morristown Medical Center  
Morristown, NJ

##### **Linda D. Gillam, MD, MPH**

Dorothy and Lloyd Huck Chair of Cardiovascular Medicine  
Medical Director of the Cardiovascular Service Line, Atlantic Health System  
Professor of Medicine at the Sidney Kimmel Medical College at  
Thomas Jefferson University

##### **Morristown, NJ Brian R. Lindman, MD, MSCI**

Medical Director, Structural Heart and Valve Center  
Associate Professor of Medicine  
Vanderbilt University Medical Center  
Nashville, TN

##### **Mark J. Russo, MD, MS**

Professor of Surgery, Chief of Cardiac Surgery  
Director of Structural Heart Disease  
Rutgers-Robert Wood Johnson Medical School  
New Brunswick, NJ

##### **David Wood, MD, FRCPC, FACC, FSCAI, FESC**

Professor, Head of Cardiology  
Vancouver General Hospital and the University of British Columbia  
(UBC) Hospital  
Director, UBC Centre for Cardiovascular Innovation and VGH  
Cardiac Catheterization Laboratory  
Vancouver, BC, Canada

*Provided by Haymarket Medical Education Independent  
medical education funding from Edwards Lifesciences, LLC.*

6:30 p.m.

#### **4511. Decisive Coronary Care: The Role of CCTA and AI in CAD Management**

Hyatt Regency McCormick Place, Regency Ballroom AB

Join us for a discussion on how Coronary CTA advancements and AI-driven insights are transforming personalized risk assessment and treatment. We'll explore the latest clinical evidence and real-world applications of Heartflow in assessing anatomy, physiology, and plaque. Learn how plaque quantification and FFRCT analysis are reshaping clinical practice.

##### **Leslee J. Shaw, PhD, MASNC, FACC, FAHA, MSCCT**

Professor of Medicine (Cardiology), Population Health Science, and Obstetrics, Gynecology, and Reproductive Science  
Director, Blavatnik Family Women's Health Research Institute

##### **Allen J. Taylor, MD, FACC, FAHA**

Chairman of Cardiology  
MedStar Heart and Vascular Institute

##### **Matthew Budoff, MD, FACC, FAHA**

Professor of Medicine, UCLA  
Endowed Chair of Preventive Cardiology  
Lundquist Institute at Harbor-UCLA, Torrance, CA

*Sponsored by HeartFlow*

8:30 p.m.

#### **4512. NewAmsterdam Pharma "Expect More" Drone Show Event**

Michigan Avenue, across from Grant Park

NewAmsterdam Pharma presents a one-of-a-kind drone show about the rising threat of ASCVD. Please be advised that the "viewing area" is along Michigan Avenue, across from Grant Park. The drones will take flight from a central location in Grant Park and be "viewable" in the sky from a 1-mile radius in all directions.

*Sponsored by NewAmsterdam Pharma*

## FUTURE HUB

### #1082

9:15 - 10:15 a.m.

#### 8006. EP Lab of the Future

This session aims to understand what the EP Lab of the Future will look like – what are the technologies, data streams and infrastructure requirements for the EP Lab in 2050.

##### Alejandro Rendon (Moderator)

Senior Director of Product Management  
Define Medical Inc

##### Nathan Kastelein

Director Clinical Engineering  
and New Concepts  
Stereotaxis

##### Jaclyn McCarthy

New Technology, Manager  
Commercial Development  
Abbott Electrophysiology

##### Krishna Pundi, MD

Fellow, Clinical Cardiac Electrophysiology  
University of California, San Francisco

##### Karen Ruszkoski

VP, Market Access and Reimbursement  
Volta Medical

##### Jennifer Silva, MD, FACC

Co-Founder and CMO, SentiAR  
Faculty Fellow in Entrepreneurship  
Washington University School of Medicine

12:30 - 1:30 p.m.

#### 8007. Cardiology 2050: Predictive Genomics, AI-enhanced Phenotyping, and Gene Therapy: Shaping the Future of Healthcare in Arrhythmia and Cardiomyopathy

This session aims to provide an overview and provocative discussion of recent advancements in predictive genomics and gene therapy, including ethical considerations, regulatory challenges and implications for future cardiovascular disease prevention and treatment. Experts will discuss novel genomic screening techniques, AI-enhanced phenotyping and monitoring, and the latest breakthroughs in gene therapy in cardiovascular diseases.

##### Anwar Chahal, MD, PhD (Moderator)

Medical Director, Center For Inherited Cardiovascular Diseases and Precision Medicine  
Associate Professor, WellSpan Health  
York, PA

##### Rafik Tadros, MD, PhD (Moderator)

Canada Research Chair, Translational Cardiovascular Genetics  
Cardiologist-Electrophysiologist  
Director, Cardiovascular Genetics Center  
Montreal Heart Institute

##### Fares Alahdab, MD, MSc

Associate Professor  
Department of Biomedical Informatics, Biostatistics, and Epidemiology  
Department of Medicine, Division of Cardiovascular Medicine  
University of Missouri School of Medicine

##### Nay Aung, MD, PhD

Clinical Senior Lecturer, Consultant  
Cardiologist MRC Clinician Scientist  
Centre for Advanced Cardiovascular Imaging  
William Harvey Research Institute  
Queen Mary University of London

##### Megan Lancaster, MD, PhD

Instructor, Cardiovascular Medicine  
Vanderbilt University Medical Center

##### Farah Sheikh, PhD, FCVS, FAHA

Professor of Medicine, University of California San Diego  
Director, University of California San Diego  
Biomedical Sciences Graduate Program

2:30 - 2:45 p.m.

#### 8008. The Potential For Digital Innovation in Cardiovascular Medicine

##### C. Michael Gibson, MS, MA (Hon.), MD, FRCP, FAHA, FSCAI, FACC

Interventional Cardiologist, Beth Israel Lahey CEO, Baim Institute for Clinical Research (FKA Harvard Clinical Research Institute) and PERFUSE  
Professor of Medicine, Harvard Medical School

*Sponsored by Johnson & Johnson*

2:45 - 3 p.m.

#### 8009. RNAi Revolution: A Story of Innovation

A brief journey through the past, present and future directions of RNAi therapeutics. This scientific story will focus on key innovations (human genetics, tissue delivery and platform design) leading to the discovery and development of the first RNAi therapeutics, an innovative class of medicine. Get a glimpse of ongoing and future research for investigational RNAi therapeutics to treat a broad set of both rare and prevalent diseases.

##### Paul Nioi, PhD

Senior Vice President, Research  
Alnylam

*Sponsored by Alnylam*

3 – 4:15 p.m.

### 8010. ACC Early-Stage Innovation Pitch Competition

Four companies will pitch their ideas to a panel of judges. There will be a judge's award and a people's choice award handed out for this pitch competition. Each company will be given 5 minutes to pitch, and 9 minutes of judges Q&A.

**envello**

**HeartFocus**  
No heart can wait™

**HeartLung.AI**

**VisCardia**

#### Emeka Anyanwu, MD, MScBMI (Moderator)

Assistant Professor of Clinical Medicine  
Director, Center for Cardiovascular Informatics  
Physician Lead for Software & Informatics, Center for Health Care Transformation & Innovation

#### Jennifer Bae, MHSA (Judge)

Executive Director of Global Innovation  
American College of Cardiology

#### Ann Demaree, MBA, BSN, RN (Judge)

Owner/Principal, A.Demaree & Associates LLC, MedTech Commercialization Consulting  
R&D Support Liaison, Cardiac Insight, Inc.  
Course Faculty & Industry Advisor, Biomedical Innovation Commercialization Readiness Program, Oregon Health & Science University

#### Stephen Flaim, PhD, FACC, FAHA (Judge)

Senior Special Advisor & Investor-in-Residence  
Innovation & Commercialization Office  
National Heart, Lung & Blood Institute

#### Thomas Maddox, MD, MSc, FACC (Judge)

Vice President, Digital Products and Innovation  
BJC HealthCare  
Professor of Medicine (Cardiology)  
Washington University School of Medicine  
Trustee, American College of Cardiology

#### Krishna Pundi, MD (Judge)

Fellow, Clinical Cardiac Electrophysiology  
University of California, San Francisco

4:15 – 5:15 p.m.

### 8011. Health Care Innovation Section Reception

Connect with members of the Healthcare Innovation Section and learn more about how you can get involved with the section.

### TAKE A BREAK

Connect with our industry partners and your colleagues during the Expo Reception on Sunday from 2:30 to 3:30 p.m.

Plus, stop by the Health Equity Hub, #17047, to learn more about ACC's Health Equity, Diversity & Inclusion efforts!

## HEALTH EQUITY HUB

#17047

9 - 10 a.m.

### **4703. Improving Heart Health For All: Designing Clinical Trials to Eliminate Gaps in Cardiovascular Outcomes**

Clinical research is a cornerstone in developing therapies and devices, informing guidelines, improving heart health, patient outcomes, and patient safety, and expanding availability of treatments to patient populations. A crucial component to ensure data from clinical trials will result in improved patient outcomes is a diverse patient population that considers demographics, such as gender, age, race, ethnicity, and more. This session will feature clinical trials experts discussing the importance of diverse patient populations on patient outcomes and best practices in recruiting individuals from a variety of communities.

**Megan Coylewright, MD, MPH, FACC (Moderator)**

**Wayne Batchelor, MD, FACC**

**Leslie Cho, MD, FACC**

**Brototo Deb, MD**

**Nosheen Reza, MD, MS, FACC**

12:30 - 1:30 p.m.

### **4704. Partnerships to Save Lives: Collaborations Among Medical Societies and Organizations to Advance Equity**

Achieving ACC's vision of a world where science, knowledge and innovation optimize cardiovascular care and outcomes requires collaborations and partnerships with multiple organizations, including CV specialty societies medical and public health organizations. Building on existing efforts, as well as forging new relationships, ACC works to advance health equity with multiple cardiovascular organizations. Featured in this session will be leaders from the Association of Black Cardiologists (ABC), Association of American Indians (AAIP), and other organizations.

This session will feature a panel discussion about efforts to advance health equity between ACC and other organizations.

**Mary Norine Walsh, MD, MACC (Moderator)**

**Barbara Hutchinson, MD, PhD, FACC**

**Blair Matheson, MD**

**Robert Roswell, MD, FACC**

2:30 - 3:30 p.m.

### **4705. Championing Communities of Health: A Cross-Industry Panel Discussion on Community Education, Cardiovascular Disease Prevention and Screening Programs**

ACC's Strategic Plan prioritizes health equity as a crucial part of the College's future. Without addressing inequities in all aspects of care, including community education, prevention, and screening, and community-based programs that address social determinants of health, it will be impossible to build a future where cardiovascular disease is no longer the #1 killer worldwide. Tackling these challenges requires cross-sector collaboration and commitment. This panel discussion will focus specifically on ACC's Health Equity strategy and priorities, the role both ACC and its partners play in improving patient outcomes, and insights from collaborators in the Life Sciences industry.

**Paul Douglass, MD, MACC (Moderator)**

**Alison Bailey, MD, FACC**

**Cathleen Biga, MSN, FACC**

**Melvin Echols, MD, FACC**

**Leandro Boer, MD, PhD (Amgen)**

**Samuel Conaway, MBA (Boston Scientific)**

**JoAnne Foody, MD, FACC (Johnson & Johnson)**

**Michelle Gearhart, PharmD (Cleverly)**

**Kendra Grubb, MD, MHA, MSc, FACC (Medtronic)**

**Alanna Morris, MD, MSc, FACC (Bayer)**

## INDUSTRY-EXPERT THEATER 1

#16077

9:15 - 10:15 a.m.

### **4004. ATTR Cardiac Amyloidosis Management in the Real World: An Expanded Body of Evidence**

Transthyretin cardiac amyloidosis (or ATTR-CM) is a serious, underrecognized, and underdiagnosed cause of heart failure. Through a patient case study and expert discussion, this program will explore identification and diagnosis of ATTR-CM and management with an oral medication option. Clinical data for this agent will be presented, including long-term extension data and findings from a real-world study.

*Sponsored by Pfizer*

12:30 - 1:30 p.m.

### **4005. From Evidence Generation to Implementation: Tackling Unmet Need in ASCVD**

Dr. Bhatt and Dr. Marvel will highlight how real-world evidence reveals critical gaps in LDL-C management. Join them as they unpack the power of implementation science and the transformative work of the LATTICE Consortium projects. LATTICE™ is Leading Awareness to Action Through Implementation of Cardiometabolic Efforts.

**Francoise A. Marvel, MD**

**Ankeet S. Bhatt, MD, MBA, ScM**

*Sponsored by Amgen*

2:30 - 3:30 p.m.

### **4006. Advancing AFib Patient Care: Left Atrial Appendage Closure & Stroke Risk Reduction**

*Sponsored by Boston Scientific*

## INDUSTRY-EXPERT THEATER 2

## #20077

9:15 – 10:15 a.m.

**4012. Backed by LEQVIO® (inclisiran) Data: Why Adherence Matters**

Interested in hearing about the real-world adherence data for LEQVIO? This insightful presentation will explore the importance of adherence and how LEQVIO can be used in appropriate patients.

**David Kwon, MD, PhD, MBA**

Senior Medical Director, US Medical Affairs  
Novartis Pharmaceuticals Corporation

**KaJuan Billings, PhD**

Executive Director, Access &  
Reimbursement  
Novartis Pharmaceuticals Corporation

**Sponsored by Novartis Pharmaceuticals Corporation**

12:30 – 1:30 p.m.

**4013. Systemic Inflammation in CVD: Perspectives in Heart Failure**

During this symposium, our expert faculty Sanjiv Shah, Brittany Weber and Marat Fudim will discuss the role of phenotyping in HFpEF and its applicability to clinical practice before discussing the role of systemic inflammation in HFmrEF/HFpEF. An overview of the relevant inflammatory pathways will be provided and the clinical utility of hsCRP as a biomarker for systemic inflammation will be discussed. Finally, the current evidence supporting the role of systemic inflammation and anti-inflammatory therapies in HFmrEF/HFpEF will be explored. Attendees will have the opportunity to ask questions to the faculty in live Q&A sessions throughout the symposium.

**Sanjiv Shah, MD**

Professor  
Northwestern University  
Illinois, Chicago

**Brittany Weber, MD, PhD**

Brigham and Women's Hospital  
Boston, Massachusetts

**Marat Fudim, MD, MHS**

Associate Professor  
Duke University  
Durham, North Carolina

**Sponsored by Novo Nordisk**

2:30 – 3:30 p.m.

**4014. Shifting the Paradigm: Lipoprotein(a) in Cardiovascular Disease**

Join renowned cardiology experts Dr. Martha Gulati and Dr. Alan Brown as they explore the fundamentals of Lipoprotein(a) and its impact on atherosclerotic cardiovascular disease (ASCVD) risk. This session will provide a detailed foundation for understanding Lipoprotein(a) and its clinical relevance in ASCVD management.

**Martha Gulati, MD, MS, FACC, FAHA**

Professor of Cardiology  
Cedars Sinai Medical Center  
Los Angeles, CA

**Alan Brown, MD, FACC, FAHA, FNLA**

Director, Division of Cardiology  
Advocate Lutheran General Hospital  
Park Ridge, Illinois

**Sponsored by Amgen**

## INDUSTRY-EXPERT THEATER 3

## #24076

9:15 – 10:15 a.m.

**4020. The Impact of Cardiac Myosin Inhibition on Cardiac Structure and Function**

Join this session to review the natural history and prognostic markers of HCM and discuss the impact of cardiac myosin inhibition on cardiac structure and function outcomes in adult patients with symptomatic NYHA Class II-III obstructive HCM from pivotal trial and long-term extension data.

**Anjali Tiku Owens, MD**

**Sponsored by Bristol Myers Squibb**

12:30 – 1:30 p.m.

**4021. Evidence-Based Strategy For the Treatment of Recurrent Pericarditis**

Approximately 40,000 individuals in the United States seek care for recurrent pericarditis (RP) annually. While typically not life-threatening, RP is often associated with sharp pain at each episode and the disease can cause significant patient burden both during and in between recurrences. The symptoms along with fear or anxiety about having another flare may impact many areas of their lives including their ability to work and mental health. Diagnosis and management of RP is often challenging as presentation often varies by patient. At this Kiniksa sponsored promotional event, we will review a paradigm shift from symptom management to an evidence-based strategy that targets and blocks the underlying cause.

**Sponsored by Kiniksa Pharmaceuticals**

2:30 – 3:30 p.m.

**4022. Title to be announced**

**Sponsored by Eli Lilly & Company**

# EXPO GUIDE - SUNDAY, MARCH 30

## INNOVATION STAGE

### #26057

11 - 11:30 a.m.

#### **4207. Evolut 5-Year Low Risk In-Depth Analysis and Lifetime Management Considerations**

Join us as we dive into the latest TAVR verses SAVR 5-year low-risk results and hear lifetime management and index valve discussions from structural heart experts.

**Anita Asgar, MD**

**Michael Reardon, MD**

**Deepak Talreja, MD**

*Sponsored by Medtronic*

12:30 - 1 p.m.

#### **4208. Equity in Action: The Evolut Evidence and Advantage For Women With Aortic Stenosis**

Join us for an exciting multidisciplinary team discussion on identifying sex-specific differences in diagnosing aortic stenosis and treatment considerations with supporting evidence from the SMART trial.

**Elana Koss, MD**

**Rachel Bond, MD**

**Amit Vora, MD**

*Sponsored by Medtronic*

2:30 - 3 p.m.

#### **4209. Decoding a Silent Threat: How Aldosterone Raises Your Risk For Hypertension and Heart Disease**

Explore the pivotal role of aldosterone dysregulation within the hypertension landscape and its implications on cardiovascular health, even independent of blood pressure. Despite medical interventions, many continue to experience uncontrolled hypertension, leading to increased mortality, cardiovascular, and kidney complications. This presentation reveals cutting-edge insights into the pathogenic effects of aldosterone excess, such as cardiac remodeling and vascular inflammation, contributing to heart failure, cardiovascular disease, and chronic kidney disease. Be part of the conversation to ignite a transformative dialogue on redefining hypertension management.

**Florian Rader, MD**

Medical Director, Hypertension Center,  
Cedars Sinai Smidt Heart Institute

*Sponsored by AstraZeneca*

## GE HEALTHCARE INTERACTIVE LEARNING LAB #1

### #16063

9:30 - 10:30 a.m.

#### **4304. Introduction to Strain Imaging**

**Christos G. Mihos, MD**

Mount Sinai Heart Institute

11 a.m. - Noon

#### **4305. Strain in Cardio-Oncology**

**Christos G. Mihos, MD**

Mount Sinai Heart Institute

1 - 2 p.m.

#### **4306. Strain in Cardiomyopathies and Amyloidosis**

**Christos G. Mihos, MD**

Mount Sinai Heart Institute

2:30 - 3:30 p.m.

#### **4307. Strain and Myocardial Work in Ischemic Heart Disease**

**Salima Qamruddin, MD**

Ochsner Health

4 - 4:45 p.m.

#### **4308. 4D Cropping and Multiplanar Formatting**

**Jacob Dewees**

GE HealthCare

## GE HEALTHCARE INTERACTIVE LEARNING LAB #2

#18063

9 – 10 a.m.

**4318. A Game Changer For Interventional and Heart Failure Specialists**

Unlock the full potential of PET imaging in interventional cardiology and heart failure—improving patient selection, guiding therapy, and enhancing clinical outcomes.

**Mouaz H. Al-Mallah, MD**  
Houston Methodist

10 – 11 a.m.

**4319. PET MPI: Impact on Women and Obesity**

Learn how PET MPI enhances diagnostic confidence and improves care for women and patients with obesity, addressing limitations of conventional imaging.

**Panithaya Chareonthitawee, MD**  
Mayo Clinic

11 a.m. – Noon

**4320. Advancing Cardiac Care: The Vital Role of PET in General Cardiology**

An overview of cardiac PET including principles of cardiac PET MPI, clinical applications, how PET can refine the diagnosis of ischemic heart disease, and new developments that make PET accessible for all cardiology practices.

**Rupa M. Sanghani, MD**  
Rush University Medical Group

12:30 p.m. – 1 p.m.

**4321. Basics of AI: Explainability (Part 3)**

**Fu Siong Ng, BSc (Hons), MBBS, PhD, FRCP, FESC, FHR, SFHEA**  
Imperial College London

1 – 1:30 p.m.

**4322. Basics of AI: MUSE as a Tool to Enable AI Research (Part 4)**

**Adam Maurice May, MD**  
Washington University in St. Louis School of Medicine

2 – 2:30 p.m.

**4323. Research Highlights From Academia (Part 1)**

**Hawkins C. Gay, MD, MPH, MSAI**  
Northwestern Medicine

**Fu Siong Ng, BSc (Hons), MBBS, PhD, FRCP, FESC, FHR, SFHEA**  
Imperial College London

2:30 – 3 p.m.

**4324. Research Highlights From Academia (Part 2)**

**Pierre Elias, MD**  
New York-Presbyterian Hospital

**Dawood Darbar, MBChB, MD**  
University of Illinois College of Medicine

ST. FRANCIS HOSPITAL/  
OPCI INTERACTIVE  
LEARNING LAB

#23017

Join us for an immersive, hands-on experience tailored for interventional cardiologists, general cardiologists, and fellows eager to expand their expertise. The OPCI Learning Lab features ten (10) interactive workshops, each 60-90 minutes long, covering essential and advanced techniques, pivotal clinical trials, and the latest breakthroughs in device and pharmaceutical technology.

9:30 – 10:30 a.m.

**4331. OPCI Hands-On Workshop**

11:30 a.m. – 12:30 p.m.

**4332. OPCI Hands-On Workshop**

1 – 2:30 p.m.

**4333. OPCI Hands-On Workshop**

3 – 4:30 p.m.

**4334. OPCI Hands-On Workshop**

## Activate Your Free ACC Anywhere Subscription

Don't forget your ACC.25 registration includes a **FREE 1-year subscription to ACC Anywhere!** Get on demand access to 200+ sessions from ACC.25 and earn up to 100 credits!

Activate your FREE subscription during ACC.25 for a chance to win a FREE iPad\*!

- Scan the QR code or visit [ACC.org/ACCAnywhere](https://ACC.org/ACCAnywhere)
- Login with your ACC username and password
- Start watching videos

\*ACC.25 attendees who login to ACC Anywhere from March 29 - 31, 2025 will automatically be entered to win an iPad. Three winners will be selected at random and notified by email.

# EXPO GUIDE - MONDAY, MARCH 31

## HEALTH EQUITY HUB

**#17047**

10 - 11 a.m.

### **4706. Lived Experiences at the Center of Care: A Patient Engagement Panel Discussion**

With a growing focus on community-based programs to address social determinants of health, cardiovascular education and prevention, and screening services, the lived experiences of patients are critical factors in the success of these efforts. How patients interact with healthcare delivery models and providers can impact trust, medication adherence, and outcomes. This session will focus on patients' lived experiences in cardiovascular care with insights from experts and providers who experienced adverse health outcomes in their lives.

**Melanie S. Sulistio, MD, FACC (Moderator)**

**Margaret Barnett, NP, FACC**

**Melvin Echols, MD, FACC**

**Eugenia Gianos, MD, FACC**

**Tyler J. Gluckman, MD, FACC**

**Mayra E. Guerrero, MD, FACC**

Noon - 1 p.m.

### **4707. Roadmaps to Equity: Personal Journeys and Future Opportunities For the Next Generation of Leaders in Health Equity**

As ACC implements its Health Equity Strategy and launches the Health Equity Committee, there is a need to continue to expand the field of health equity advocates to create, and sustain, a culture of health equity in cardiovascular medicine. To that end, this session will feature a panel discussion with experts and leaders sharing their personal experiences in health equity advocacy, the importance of growing the next generation of health equity experts and advocates, and opportunities to get involved in existing health equity programs.

**Andrew P. Miller, MD, FACC (Moderator)**

**Nausheen Akhter, MD, FACC**

**Jill A. Patton, RN, MSN, CRNP, AACC**

**Kadijah F. Porter, MD, MS**

**Sarah T Plummer, MD, FACC**

**Eugene Yang, MD, MS, FACC**

## INDUSTRY-EXPERT THEATER 1

**#16077**

10 - 11 a.m.

### **4007. Perspectives in Hypertension Secondary to Hypercortisolism: A Panel Discussion**

Case-based panel discussion on evolving perspectives in endogenous hypercortisolism.

**David R. Brown, MD, PhD**

Private Practice Endocrinology, Diabetes, and Metabolism

Rockville, MD

Jorge Plutzky, MD, FACC, FNLA

**Director, Preventive Cardiology**

Brigham and Women's Hospital

Boston, Massachusetts

**Pam R. Taub, MD, FACC, FASPC**

Director of Preventive Cardiology

Director of Step Family Foundation Cardiovascular Rehabilitation and Wellness Center

Professor of Medicine

UC San Diego Health System

La Jolla, California

*Sponsored by Corcept Therapeutics*

Noon - 1 p.m.

### **4008. AAV Gene Therapy in Heart Failure: Discussion About GenePHIT, a Phase II Trial of AB-1002 For the Treatment of Heart Failure**

Heart Failure (HF) is a multi-faceted and life-threatening disease characterized by significant morbidity and mortality. Despite recent advancements in treatment approaches for HF, a high unmet therapeutic need exists in patients living with this disease. Gene therapy is being investigated as an approach to treat HF based on its potential to improve heart function. This educational symposium brings together an expert faculty to discuss the past, present, and future of cardiac gene therapy and highlight GenePHIT, a Phase 2 trial of AB-1002 (designed to block the action of protein phosphatase 1) for the treatment of HF using AAV-based gene therapy. Foot note: AB-1002 is investigational gene therapy and not approved by the FDA or EMEA.

**Roger Hajjar, MD**

Massachusetts General Brigham

Cambridge, MA, USA

**Timothy Henry, MD**

Christ Hospital

Cincinnati, OH, USA

**JoAnn Lindenfeld, MD**

Vanderbilt University Medical Center

Nashville, TN, USA

**Javed Butler, MD**

Baylor Scott & White Research Institute

Dallas, TX, USA

*Sponsored by AskBio*

## INDUSTRY-EXPERT THEATER 2

### #20077

10 - 11 a.m.

#### **4015. Overcoming the Hurdles: Address CV Risk and Weight in Appropriate Patients**

Recognize obesity as a chronic, progressive disease and explore the relationship between obesity and cardiovascular disease (CVD). Discuss the need to address cardiovascular (CV) risk and weight in adults with CVD and obesity or overweight. Analyze the efficacy and safety data from a cardiovascular outcomes trial as well as from relevant chronic weight management trials.

**Sanjay Rajagopalan, MD, MBA, FACC, FAHA**  
Chief, Cardiovascular Medicine and Chief  
Academic and Scientific Officer  
University Hospitals Harrington Heart &  
Vascular Institute  
Herman K. Hellerstein MD, Professor of  
Cardiovascular Medicine  
Professor, Department of Internal Medicine  
and Biomedical Engineering  
Case Western Reserve University  
Cleveland, Ohio

*Sponsored by Novo Nordisk*

Noon - 1 p.m.

#### **4016. A Major Milestone in the Treatment of Familial Chylomicronemia Syndrome (FCS)**

Join IONIS to learn about TRYNGOLZATM - the first and only FDA-approved therapy for adults with familial chylomicronemia syndrome (FCS), and what it may mean for your patients! Please see Important Safety Information and full Prescribing Information for TRYNGOLZA at TRYNGOLZAHCP.com.

**Alan Brown, MD, MHA, FACC, FAHA, MNLA**  
Director of the Lipid Clinic  
Advocate Health and Hospitals  
Corporation  
Lutheran General Hospital  
Chicago, IL

*Sponsored by Ionis Pharmaceuticals*

## INDUSTRY-EXPERT THEATER 3

### #24076

10 -11 a.m.

#### **4023. Insights to Impact in ATTR-CM: Bringing New Data and Treatments Into Routine Care**

Transthyretin amyloid cardiomyopathy (ATTR-CM) is a progressive cardiac condition that has become an increasingly recognized cause of heart failure. ATTR-CM is characterized by the accumulation of amyloid deposits in the heart, resulting in stiffening of the cardiac walls and eventual heart failure. Unfortunately, diagnostic delays and misdiagnosis of ATTR-CM are common, preventing patients from receiving appropriate therapies that may slow disease progression and improve their outcomes. In this symposium, case-based discussions led by our expert faculty will equip healthcare professionals with the knowledge to diagnose and effectively manage ATTR-CM, including early symptom recognition, the prognostic value of biomarkers, and the latest data on current and emerging treatment options.

**Ahmad Masri, MD**  
Director, Hypertrophic Cardiomyopathy Center  
Oregon Health & Science University  
Portland, Oregon

**Daniel P. Judge, MD**  
Professor of Cardiology  
Medical University of South Carolina  
Charleston, South Carolina

**Nitasha Sarswat, MD**  
Assistant Professor of Medicine  
Director, Infiltrative Cardiomyopathy Program  
University of Chicago  
Chicago, Illinois

*Sponsored by BridgeBio*

Noon - 1 p.m.

#### **4024. Exploring EVKEEZA® (evinacumab-dgnb)**

- Early detection and intervention in HoFH
- Mechanism of action for EVKEEZA
- Clinical efficacy and safety of EVKEEZA
- Long-term (48 weeks\*) efficacy and safety of EVKEEZA
- Dosing and administration for EVKEEZA
- myRARE®: Patient support for EVKEEZA

\*48-week study (24-week double-blind treatment period followed by 24-week open-label treatment period)

**Alan S. Brown, MD, MHA, FACC, FAHA, FASPC, MNLA**

*Sponsored by Regeneron*

# EXPO GUIDE - MONDAY, MARCH 31

## INNOVATION STAGE

**#26057**

10:15 - 10:45 a.m.

### **4210. AI-Driven Plaque Quantification: A Paradigm Shift in CAD Management**

This session explores how AI-driven plaque quantification is transforming coronary artery disease (CAD) management. Experts will discuss how advanced imaging and AI tools are reshaping diagnosis, risk stratification, and treatment decisions, offering a paradigm shift in personalized care.

**Allen J. Taylor, MD, FACC, FAHA**  
Chairman of Cardiology  
MedStar Heart and Vascular Institute

*Sponsored by HeartFlow*

12:15 - 12:45 p.m.

### **4211. Getting to the Heart of the Matter: Gene Therapy For Cardiac Disease**

Cardiac diseases due to a genetic cause are common, but underrecognized culprits of potentially devastating outcomes. Opportunities exist to improve upon current treatments by targeting the underlying cause. Advancements in genetic medicine and delivery technologies have paved a path for cardiac gene therapy to get to the heart of the matter. Join Drs. Eric Smith and Eric Adler to for an exciting discussion on the potential of gene therapy in arrhythmogenic cardiomyopathy (ACM) and hypertrophic cardiomyopathy. Also hear about Lexeo's clinical progress, including new data updates, from their HEROIC-PKP2 gene therapy trial for PKP2-ACM and SUNRISE-FA gene therapy trial for Friedreich ataxia cardiomyopathy

**Eric Smith, MD**

**Eric Adler, MD**

*Sponsored by Lexeo Therapeutics*

## GE HEALTHCARE INTERACTIVE LEARNING LAB #1

**#16063**

9:30 - 10:30 a.m.

### **4309. 4D Cropping and Multiplanar Formatting**

**Jacob Dewees**  
GE HealthCare

11 a.m. - Noon

### **4310. 4D Quantification Tools**

**Jacob Dewees**  
GE HealthCare

## GE HEALTHCARE INTERACTIVE LEARNING LAB #2

#18063

11 a.m. - Noon

### **4325. A Game Changer For Interventional and Heart Failure Specialists**

Unlock the full potential of PET imaging in interventional cardiology and heart failure—improving patient selection, guiding therapy, and enhancing clinical outcomes.

**Mouaz H. Al-Mallah, MD**  
Houston Methodist

Noon - 1 p.m.

### **4326. Advancing Cardiac Care: The Vital Role of PET in General Cardiology**

An overview of cardiac PET including principles of cardiac PET MPI, clinical applications, how PET can refine the diagnosis of ischemic heart disease, and new developments that make PET accessible for all cardiology practices.

**Rupa M. Sanghani, MD**  
Rush University Medical Group
