

## Breakout Group: **Thrombotic Risk in COVID-19 Patients**

Session Lead: **Geoffrey Barnes, MD, MSc, FACC**

### Clinical Topics for Consideration:

- ❖ VTE prevention dosing/intensity in hospitalized patients with COVID-19 (ICU and non-ICU)
- ❖ Potential role for anti-platelet therapy to prevent thrombosis in patients with COVID-19
- ❖ Role of post-hospital thromboprophylaxis for COVID-19
- ❖ Role of thromboprophylaxis for non-hospitalized patients with COVID-19
- ❖ Which biomarkers should be checked to assist with risk stratification or treatment decisions in patients with COVID-19?
- ❖ When should CT, Echocardiography, and Vascular Lab imaging be performed/deferred for patients with COVID-19?

### Participants:

*Jeffrey S. Berger, MD, FACC*

Director  
Center for the Prevention of CV Disease  
NYU Langone Health

*Behnood Bikdeli, MD, MS*

Vascular Medicine Advanced Fellow  
Harvard Medical School

*Jean M. Connors, MD*

Associate Professor of Medicine  
Harvard Medical School

*Ricardo Garcia-Sanchez, MD*

Head, Eliquis & Thrombosis  
Worldwide Medical Cardiovascular  
Bristol Myers Squibb

*Ty Gluckman, MD, FACC*

Medical Director, Center for Cardiovascular  
Analytics, Research, and Data Science (CARDS)  
Providence Heart Institute  
Providence St. Joseph Health

*Yogendra Kanthi, MD*

Lasker Investigator, Chief - Laboratory of  
Vascular Thrombosis & Inflammation  
National Heart, Lung and Blood Institute  
National Institutes of Health

*Jerrold H. Levy, MD*

Professor of Anesthesiology, Critical Care, and  
Surgery (Cardiothoracic)  
Duke University Medical Centre

*Gregory Piazza, MD, MS, FACC*

Associate Professor of Medicine  
Harvard Medical School

*Deborah Siegal, MD, MSc, FRCPC*

Associate Professor, Department of Medicine  
University Of Ottawa and Ottawa Hospital  
Research Institute

*Leben Tefera, MD*

Staff Physician  
Cleveland Clinic

*Barbara S. Wiggins, PharmD, BCPS, FACC*

Affiliate Professor  
South Carolina College of Pharmacy  
Medical University of South Carolina
