THE COLLABORATIVE MAINTENANCE PATHWAY

## What Does ABIM's Extension of MOC Deadlines through 2022 Mean for the CMP?

Because of the ongoing pandemic, the ABIM has **extended deadlines for all Maintenance of Certification (MOC) requirements to December 31, 2022.** Here's what that extension means for the CMP:

If your MOC assessment requirement is due in 2020/2021/2022, you must pass one (1) CMP Performance Assessment in either 2020, 2021, OR 2022 to be counted as meeting your MOC assessment requirement.

Instead of passing every year during this time, you only have to pass once.

This alleviates stress and gives you extra chances to pass.

## What Does ABIM's Extension of MOC Deadlines through 2022 Mean for the CMP?

If your MOC assessment requirement is due in 2022:

- If you have not yet started the CMP, you can start in 2022 and you'll have 2 chances to pass.
- If you <u>PASSED</u> a CMP Performance Assessment in <u>2020 and/or 2021</u>, you don't need to pass in 2022.
- If you <u>FAILED</u> a CMP Performance Assessment in <u>2020 and/or 2021</u>, you have two more chances to pass in 2022.
