

Shifting the Global Paradigm for Managing CV Risk in Diabetes

Day 1 July 20th 19-22:00

| Time (minutes) | Topic | Presenter | Discussant |
|--------------------------|---|-----------------------|-----------------------|
| 15 | Welcome | | |
| 40 | Cardiometabolic: The convergence of diabetes and cardiovascular disease -Introduction to this unique case-based learning program | Leigh Perreault, ADA | |
| 20 | Challenging Case in Hypertension : Applying New Guidelines in Treatment of High Blood Pressure.- Resistant hypertension | Keith Ferdinand, FACC | Stephen Kopecky, FACC |
| 15 | Expert Panel | | |
| 40 | CASE STUDY SESSION: HTN- Antihypertensive Therapies10-minute discussion on current issue in HTN/CVD/DM, followed by Case Study | Keith Ferdinand, FACC | Joel Fernandez |
| 15 | Challenging Case in Hypertension, Diabetes and CKD | Stephen Kopecky, FACC | |
| 30 | Expert Panel | | |
| Day 2 July 21st 19-22:30 | | | |
| 10 | Day 1 Recap and Lay the expectations for Day 2 Sessions | | |
| 30 | CASE STUDY SESSION: DM and CVD Prevention (Diabetes ABC's)discussion about comprehensive CVD risk reduction, STENO II and current status of CV risk intervention in clinical practice, followed by Case Study | Leigh Perreault, ADA | Andrew Ahmann, ADA |
| 30 | CASE STUDY SESSION: Hypercholesterolemia, Statin Intolerance and Diabetes-Where do the new guideline take us? 10-minute discussion on new cholesterol guidelines and new Rx, followed by Case Study | Keith Ferdinand, FACC | Stephen Kopecky, FACC |
| 15 | Expert Panel | | |
| 30 | CASE STUDY SESSION: Changing landscape for dual efficacy agents (glucose lowering and MACE) 10 minutes discussion of CVOT and pipeline, followed by Case Study | Michelle Magee, ADA | |

| | | |
|----|---|--|
| | | Discussant: Andrew Ahmann, ADA |
| 20 | Expert Panel | Presenter: Andrew Ahmann, ACC |
| 30 | CASE STUDY SESSION: Progressive renal disease and diabetes dual efficacy agents (glucose lowering and DKD) 10-minute discussion of renal outcomes and practice guidance followed by Case Study | Discussant: Michelle Magee, ADA |
| 20 | Expert Panel | |
| | Day 3 July 22nd 19-22:30 | |
| 30 | CASE STUDY SESSION: Real-World Approaches to Severe Hyperglycemia 20-minute discussion on safe, pragmatic glucose management and survival skills education to enable patient and provider success. Addressing patient concerns (real) about microvascular complications | Presenter: Michelle Magee, ADA |
| 15 | Challenging Case in Diabetes Use of Patient Center Glucose Management | Discussant: Andrew Ahmann, ADA |
| 15 | Expert Panel | Presenter: Leigh Perreault, ADA |
| 40 | FACILITATED DISCUSSION: Optimal Diabetes and CVD Management in the Real World-Real | Discussant: Leigh Perreault, ADA |
| 40 | Coronavirus (COVID-19) Pandemic updates and insights: Patients with cardiometabolic diseases | Presenter: Keith Ferdinand, FACC |
| 30 | CLOSING REMARKS/ Experts Panel: Take home Messages | Discussant: Stephen Kopecky, FACC |
