THE COLLABORATIVE MAINTENANCE PATHWAY

Don’t just test yourself. Invest in yourself.

Enroll today at www.ACC.org/CMP
Don’t just test yourself.
Invest in yourself.

The CMP is MORE THAN TESTING — it’s about learning and refreshing your knowledge on a yearly basis. It’s delivered through ACC’s SAPs, so it includes comprehensive educational material and annual updates.
Key Concepts of the CMP

- The CMP promotes continuous learning by focusing on **20% OF THE FIELD EACH YEAR**.

- Over **5 YEARS, YOUR ENTIRE KNOWLEDGE BASE IS REFRESHED**.

- You start with whatever topic is the focus the year that you opt in and continue with **YEARLY PARTICIPATION**.

<table>

• Basic science | • Supraventricular Tachycardias | • Acute Heart Failure  
• Pulmonary Hypertension |
6 Steps to participating in the CMP

1. Be currently **CERTIFIED by the ABIM & NOT IN AN EXAM GRACE PERIOD**
2. **PURCHASE** the Relevant SAP
   - Includes 5 years of access
3. **ENROLL** in the CMP
   - ACC.org/CMPenroll
4. **SCORE 70% on the Practice Questions for the CMP Topic(s)**
5. **Take/Pass a PERFORMANCE ASSESSMENT**
6. **REPEAT STEPS 4 & 5 each year.**
   - (But on a different 20% of the field each year)
STEP 1: Be currently CERTIFIED by the ABIM and NOT in an EXAM GRACE PERIOD

A grace period occurs when you fail an assessment in the year you were due but have met all of your other MOC program requirements. If you are in a grace period and have questions, please contact the ABIM directly.

You can check your certification status by signing in to your ABIM Physician Portal at www.ABIM.org.

ABIM Contact Information:
• Phone: 800-441-2246
• Email: request@ABIM.org
STEP 2: Purchase the Relevant SAP
(your purchase provides you with 5 years of access)

My institution subscribes to CardioSource Plus. Will the CMP be available through it?

CardioSource Plus includes the traditional elements of a SAP (text, presentations, practice questions). It does not include the CMP. To participate in the CMP, you must purchase your own personal subscription to the SAP.

As long as you use the SAME ACC.ORG ACCOUNT to access the SAP through CardioSource Plus and to purchase your personal subscription, your progress and usage data will be stored in one central location.

CARDIOSOURCE PLUS USERS CAN ORDER SAPS BY:

- **Enrolling in the CMP**, which will prompt you to buy SAP (technical difficulties prevent CardioSource Plus users from purchasing outside of enrollment).

- **Calling** ACC’s Member Care team at 800-253-4636, x5603 from 9:00 a.m. to 5:00 p.m. ET.
STEP 3: ENROLL in the CMP

ENROLLING IS EASY! TO ENROLL, YOU MUST:
• Have a PERSONAL SUBSCRIPTION to the SAP*.
• Have your ABIM DIPLOMATE number, DATE OF BIRTH, and the NAME that appears on your ABIM certificate.
• Have a CELL PHONE NUMBER or EMAIL ADDRESS that you can use for 2-factor authentication.

AFTER ENROLLING:
• You will have access to the CMP HUB within the SAP, where you can track your progress and access Performance Assessments.
• You can CONTINUE WORKING TOWARD YOUR 70% SCORE

*SAPs through CardioSource Plus do not include the CMP. Refer to slide 6 for details.

To enroll, visit ACC.org/CMPEnroll
STEP 4: Score 70% or better on the PRACTICE QUESTIONS for the CMP Topic(s)

New for 2022, the 7-hour learning engagement requirement has been eliminated. You can now spend as much or as little time as you like “engaging” in the CMP topic(s) each year.

The only thing you’re required to do before taking a Performance Assessment is score 70% or better on the CMP topic(s)’ practice questions.

- You can start answering the practice questions as soon as the yearly updates are published, usually in early/mid February.

- You may answer the questions as many times as necessary to achieve a 70% score.
STEP 5: Take & Pass a PERFORMANCE ASSESSMENT

PERFORMANCE ASSESSMENTS ARE TESTS:

• **SHORTER** in length (60 questions that are structured just like the Practice questions in the SAP)
• **FOCUSED** on only 20% of the field each year
• **OPEN BOOK** – use any resource except another person
• **TIMED** – you will have 2 hours* to complete the test and you must complete it in one sitting.
• **ONLINE** – take a performance assessment in your home or office
• Available **DURING 2 SPECIFIC WEEKS EACH YEAR** so you have **2 CHANCES TO PASS EACH YEAR** – once during each week of availability.

*New for 2022, the CMP for Electrophysiology offers 3 hours for a Performance Assessment; EP questions are longer and feature more clinical images than other specialties.

2022 Performance Assessment Dates

**ACCSAP**
Oct. 8 – 16, 2022
Dec. 3 – 11, 2022

**CathSAP, EP SAP, & HF SAP**
Aug. 13 – 21, 2022
Nov. 12 – 20, 2022
### The CMP Promotes Continuous Learning

The CMP promotes continuous learning through a focus on 20% of the field each year. You start with whatever topic is the focus the year that you enroll. You have to do something EVERY YEAR to maintain your certification via the CMP:

- Score 70% or better on the practice questions for the topic(s)
- PASS the Performance Assessment.

### The Collaborative Maintenance Pathway

**2022**
- **ACCSAP**
  - Heart Failure
  - Pulmonary Circulation Disorders
- **CATHSAP**
  - Anatomy
  - Cardiac Imaging & Assessment
  - Miscellaneous Topics
  - Procedural Techniques I: Fundamentals of Cardiac Cath
- **EPSAP**
  - Ventricular Arrhythmias
- **HFSAP**
  - Heart Failure with Reduced Ejection Fraction

**2023**
- **ACCSAP**
  - Valve Disease
  - Congenital Heart Disease
- **CATHSAP**
  - Procedural Techniques II: Coronary Interventional Equipment & Techniques
- **EPSAP**
  - Cardiac Implantable Electronic Devices
- **HFSAP**
  - Heart Failure with Preserved EF
  - Special Etiologies

**2024**
- **ACCSAP**
  - Vascular Disease
  - Hypertension
  - Pericardial Disease
  - Systemic Disorders of the Circulatory System
- **CATHSAP**
  - Catheter-Based Mgmt of Noncoronary Disease
  - Complications of Coronary Intervention
- **EPSAP**
  - Atrial Arrhythmias
  - Clinical Scenarios and Syndromes
- **HFSAP**
  - Mechanical Circulatory Support

**2025**
- **ACCSAP**
  - Arrhythmias
- **CATHSAP**
  - Case Selection & Management
- **EPSAP**
  - Basic Physiology, Anatomy, Pharmacology, and Genetics
  - Core Concepts of Clinical Arrhythmias
  - Bradycardias and Conduction Disorders
- **HFSAP**
  - Heart Transplant

**2026**
- **ACCSAP**
  - Coronary Artery Disease
- **CATHSAP**
  - Pharmacology
  - Basic science
- **EPSAP**
  - Supraventricular Tachycardias
- **HFSAP**
  - Acute Heart Failure
  - Pulmonary Hypertension
WHAT HAPPENS IF I DON’T PASS THE CMP PERFORMANCE ASSESSMENT IN THE YEAR THAT MY ASSESSMENT REQUIREMENT IS DUE?

• Starting the year that your MOC assessment requirement is due, you MUST PASS THE CMP PERFORMANCE ASSESSMENT (PA) EVERY YEAR to be considered as meeting your assessment requirement.

• You get 2 CHANCES TO PASS each year.

• If you DO NOT PASS a CMP PA in the year that your assessment requirement is due, you won’t lose your certification. Instead, you need to take the traditional, 10-year MOC exam to achieve a passing score. After passing the 10-year exam, you can return to the CMP.
WHEN Should I Start Participating In The CMP?

YOU CAN START THE YEAR YOUR MOC ASSESSMENT REQUIREMENT IS DUE.

You are not required to do anything before the year your assessment is due.

As long as you take the Performance Assessment and pass it in the year your current certificate expires, you will be counted as meeting your assessment requirement.

If your MOC assessment requirement is due in 2022, you can start the CMP in 2022.

If your MOC assessment requirement is due in 2025, you can start the CMP in 2025.
WHEN Should I Start Participating in the CMP?

CONSIDER STARTING EARLY / NOW! Enrolling in the CMP now lets you:

• Gain experience taking Performance Assessments without the stress of achieving a passing score by participating in the CMP before the year you are due. Participation in the CMP prior to your due date does not change your due date.

• Get into the habit of focusing on 20% of the field each year.

• Earn all the of CME and MOC points that you need.

• Use the CMP SAP as a study tool if you decide to take a different assessment option (such as ABIM’s traditional 10-year exam).
Do I Have To Buy A CMP SAP Each Year To Participate In the CMP?

YOUR PURCHASE OF A CMP SAP INCLUDES FIVE YEARS OF ACCESS, so you only need to buy it once every five years.

- $1,500 for an ACC Member
- $1,900 for a Nonmember
- $900 for Fellows in Training or Emeritus Members

(The average yearly price of ACCSAP for members has decreased from $400 to $300 – a 25% savings.)
What is the TOTAL COST to Participate in the CMP?

Participation in the CMP involves two separate costs:

**ABIM ANNUAL COST TO PARTICIPATE IN MOC***
$220 per year
*(if you pay in the year you’re due)*

*Paid directly to ABIM regardless of the MOC option you choose.

**CMP SAP PURCHASE, WHICH GIVES YOU 5 YEARS OF ACCESS**
- $1,500 for ACC Members
- $1,900 for Nonmembers
- $900 for Fellows in Training or Emeritus Members

**Paid directly to ACC for access to all SAP educational material, CME/MOC credits and the CMP.**
Can I Use the CMP to Regain my Certification Status if my ABIM Certificate has Lapsed?

- The CMP is not currently a re-entry pathway for a lapsed certificate.
- “Re-entry" pathways for a lapsed certificate include:

  Taking and passing the traditional **10-year MOC exam**

  Participating in ABIM’s **Longitudinal Knowledge Assessment** (LKA™)

**Please note that because a decision on performance is not made until the end of the 5th year of LKA participation, a physician will be reported as “Not Certified” until that time. A physician whose certification has lapsed may use the traditional, 10-year MOC exam to restore certification more quickly.**
The CMP: Everything You Need to Stay Licensed, Certified & Current

- The CMP is a great way to stay current. Each CMP SAP offers world-class education that’s updated each year and the CMP helps you focus on a different 20% of the field each year.

- You can earn all of the CME credit and MOC Medical Knowledge points that you need.

- When your MOC assessment requirement is due, simply continue with the CMP. There’s no need to travel to a Board review course and no need to take time away from your practice. Everything you need is included in the CMP SAP.

As a streamlined path for refreshing your knowledge, staying licensed, AND maintaining your certification, the CMP allows you to spend MORE TIME FOCUSED ON YOUR PATIENTS and YOUR LIFE.
CMP Enrollees are Very Pleased with the Program

Very useful and I feel that participation will make me a better cardiologist. This is a superior way to maintain competency and remain current.

- David A. Rosenbaum, MD, FACC

Great job ACC/ABIM. ACCSAP is an awesome product.

- Gerald M. Gacioch, MD, FACC

The ACC CMP was relevant to my practice. I knew what I needed to know. I mastered what I needed to know. I have already used much of the information that I LEARNED with the CMP in my practice.

- Gregg T. Schuyler, MD, PhD, FACC

Very pleased with the overall experience. Relevant content and relatively easy to complete within confines of other responsibilities.

- Christian T. Ruff, MD, MPH

Thank you for developing an alternative to the 10-year exam. I learned more, plus, I am now able to use the SAP for reference.

- Susan P. Graham, MD, FACC
