# ACC STRATEGY MAP, STRATEGIC THEMES AND GOALS

## MISSION

**To Transform  
Cardiovascular Care and  
Improve Heart Health**

## VISION

The members of the College will dramatically reduce the incidence, severity, and complications of cardiovascular disease as we promote prevention, reduce disparities in health care and improve personal population-based cardiovascular health.

## CORE VALUES

### MEMBER VALUES

Knowledge, Integrity, Professionalism, Value of the CV Specialist, Member Driven, Inclusiveness

### STAFF VALUES

Credibility, People-Driven, Purpose, Commitment, Integrity

**AMERICAN  
COLLEGE of  
CARDIOLOGY**

## STRATEGIC THEMES

### POPULATION HEALTH

ACC is a leader in efforts to reduce the burden of cardiovascular disease in US and global populations.

### PURPOSEFUL EDUCATION

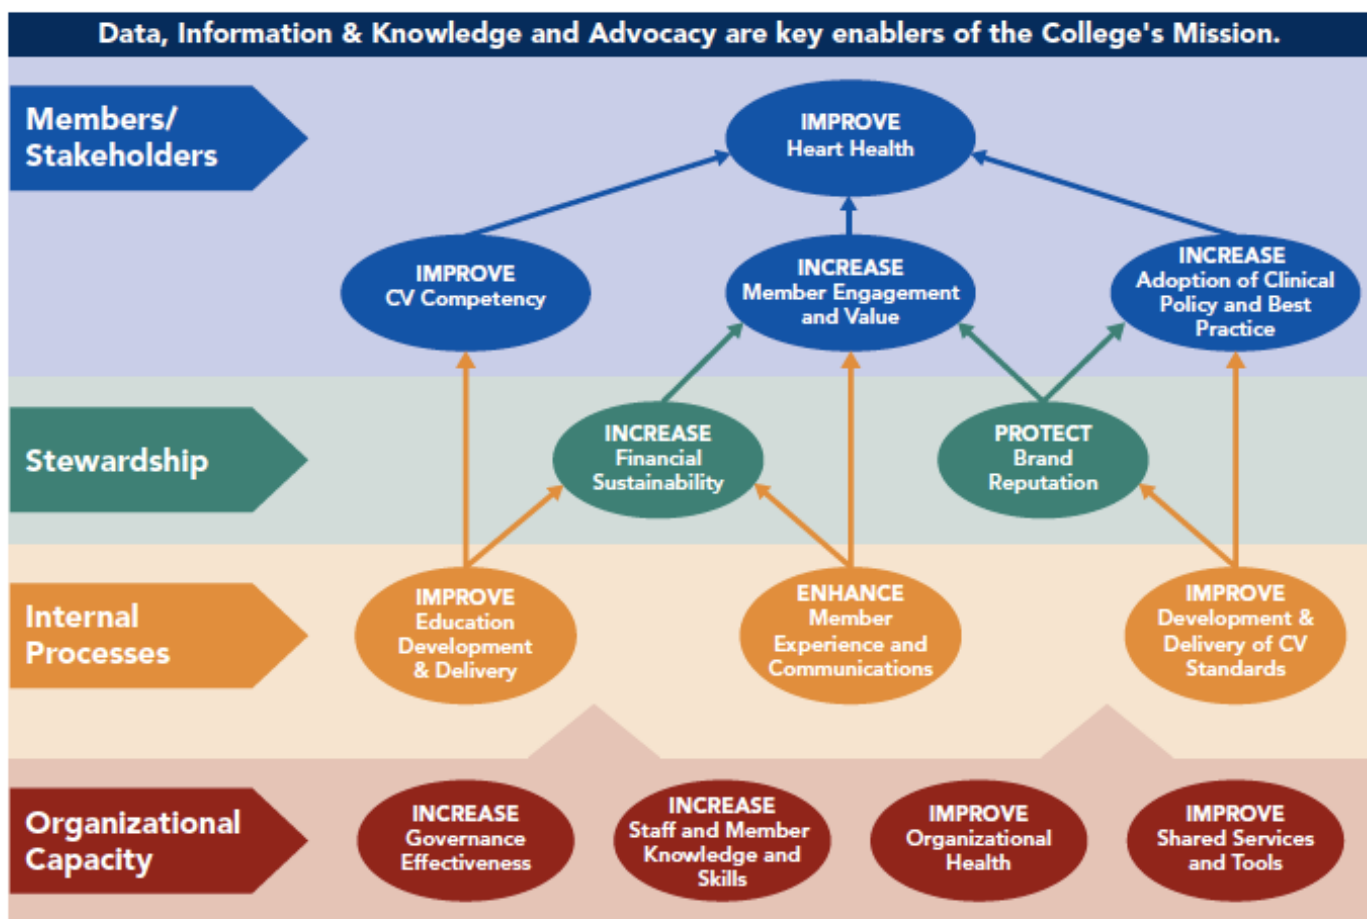

Transform CV workforce by developing a personalized, competency based educational experience; producing a curriculum that addresses clinical, administrative, and leadership skills; and engaging and expanding the community of learners.

### MEMBER VALUE AND ENGAGEMENT

Cardiovascular specialists choose ACC as their professional home.

### TRANSFORMATION OF CARE

Patients receive the highest quality, patient-centered, cost-effective CV care with improved outcomes.

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# ACC Section/Council Definitions

- Section - Members who *actively* align themselves around an area of clinical or professional interest. Typically pay \$35/year to join a member community.
- Sections are *governed* by a corresponding Section Leadership Council. A section leadership council is a leadership group comprised of members appointed by the president.

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# Current ACC Sections

- Academic Cardiology
- Adult Congenital and Pediatric Cardiology
- Cardiovascular Team
- Cardiovascular Management
- Cardiovascular Training
- **Cardio-Oncology**
- Early Career
- Electrophysiology
- Federal Cardiology
- Fellows in Training
- Geriatric Cardiology
- Heart Failure and Transplant
- Imaging
- Interventional
- Peripheral Vascular Disease
- Prevention of CV Disease
- Sports and Exercise Cardiology
- Surgeons'
- Women in Cardiology

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# Why do we need an ACC Cardio-Oncology Section?

- Mission: To advance cardiovascular health of patients with cancer and cancer survivors
- Priorities
  - Education
    - Provider and Patient education
  - Training
  - Establish data-driven best practices
  - Community building

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# ACC Cardio-Oncology Section

## Working Groups and Activities:

- Pediatric cardio-oncology
- Education
- Patient education: ACC-ECOG
- [ACC.org/cardio-oncology](http://ACC.org/cardio-oncology)
- Advocacy

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# Patient Education

- ACC partnering with ECOG (Eastern Cooperative Group) Cardiotoxicity Working Group
- Group identified an important need to improve upon the information to patients
- Goals are to answer key questions related to cardiovascular care, management strategies, and potential toxicities prior to, during and after therapy

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# Patient Education

- Information will “live” on ACC [cardiosmart.org](http://cardiosmart.org) and ECOG websites
- Initial focus: Radiation cardiotoxicity
- Goals are to expand to other treatment and disease groups

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# ACC.org

ACC members' home for:

- The latest in cardiology – news, JACC journals
- Tools and practice support – apps, guidelines
- Membership & meetings
- Education – CME, MOC
  - Noncertified clinical content

AMERICAN  
COLLEGE *of*  
CARDIOLOGY

# ACC.org

CardioSource.org was recently redesigned and relaunched as ACC.org to significantly improve the College's engagement with members and other stakeholders.

The Clinical Topic Collections were introduced as places of scholarship that offer

- Easy and intuitive access to clinical content created by specialists in the field
- Personalized views based on interests and specialties
- Community engagement

# Cardio-Oncology Collection

The screenshot shows the American College of Cardiology (ACC) Cardio-Oncology Collection website. The header includes the ACC logo, navigation links (Guidelines, JACC, ACC.17, Membership, About ACC), a search bar, and a 'Log in to MyACC' button. A red circle highlights the 'Clinical Topics' tab in the main navigation bar, with a callout stating: 'This tab lists all clinical topic collections'. Another red circle highlights the 'Log in to sign up for digests and notifications' button, with a callout stating: 'Log in to sign up for digests and notifications'. Below the navigation bar, there are three featured content tiles. The first tile, titled 'Advancing Cardio-Oncology Patient Care', features a sunset image of the Washington Monument and a callout stating: 'These tabs show the feeds for all content related to cardio-oncology.' The second tile, titled 'Echocardiography in Breast Cancer Patients and HF Symptoms', features an image of a book. The third tile, titled 'STEMI in a Patient With Severe Thrombocytopenia | Patient Case Quiz', features an ECG image. Below these tiles is a 'Trending' section with a red circle around the 'Trending' tab and its sub-tabs: 'Latest in', 'Education', 'Meetings', and 'Images & Slides'. The 'Trending' section displays a featured article titled 'Echocardiography in Breast Cancer Patients and HF Symptoms' by David S. Bach, MD, FACC, dated Feb 07, 2017. The article text begins: 'What are the changes in echocardiographic parameters of left ventricular (LV) structure, function, and ventricular-arterial (VA) coupling among patients treated for breast cancer, and are there...'. To the right of the trending section is an 'Editorial Team Lead' section featuring a photo of Monika Jacqueline Leja, MD, FACC, and her affiliation with the University of Michigan, Ann Arbor, MI. A link to 'Full Editorial Team >>>' is provided. The ACC logo is visible in the bottom right corner.
