

## ACC.22 Sessions Included in ACC Anywhere

### Electrophysiology

- Arrhythmias in Cancer Patients – The Why, The How and The What To Do
- JACC: Case Reports Da Vinci Corner: Translational Cardiac Anatomy of the Ventricles
- New Technology or Better Organization? Optimizing Arrhythmia Care in Individual Patients: Joint Symposium of the Heart Rhythm Society and the American College of Cardiology
- It Takes A Team: Remote Monitoring of Cardiac Devices and Personal Wearables
- Sudden Unexplained Cardiac Arrest and Death: How Do I Evaluate the Patient and Family?
- Artificial Intelligence in Electrophysiology: Will Machines Replace Us?
- Stroke Prevention in Atrial Fibrillation
- Things You Should Know as a Female Interventional Cardiologist or Electrophysiologist
- Pacing Technologies
- AF in Older Adults: Should We Treat Them Differently?
- Return to Play: How to Manage the Return
- Sudden Death Risk 2022: It's Not All About the LVEF
- Burning Controversies in Arrhythmia Care of Athletes
- Rapid-Fire ECG With the Experts
- Racial Disparities in Arrhythmia Management and Outcomes
- Atrial Fibrillation Across the Globe — A "Global Health Spoken Here" Session
- Core Knowledge in Action: To ICD or Not to ICD, That Is the Question
- EP Section Highlights
- Is the Rising Maternal Mortality In the US Due to Increased Arrhythmias?

### Heart Failure and Cardiomyopathies

- Cardio-Oncology Program Building: Bridging the Gap Between the Heart and Cancer Care
- A Mother's Heart: A #SheForShe Symposium on Pregnancy and Heart Failure
- Hemodynamics 201: A Case-Based Approach to Heart Failure, Pulmonary Hypertension, and Mechanical Circulatory Support
- Cardiac Amyloidosis: Challenges in Diagnosis and Management
- We Are Family: Utilizing the Multidisciplinary Heart Failure Team to Improve Transitions of Care and Optimize Outpatient Therapy
- When You Hear Hoofbeats...The Zebra Cardiomyopathies
- Party Like It's 2022: The Latest Guidance in Heart Failure Care

- #Trending Hot Topics: Internet Pop-Up Ads Versus Text Book Treatments for Heart Failure Comorbidities
- Core Knowledge in Action: What Everyone Ought To Know About HF-rEF
- Not All Shock Is Created Equal: AMI Versus HF Cardiogenic Shock
- Twitter Me This: How Do #EPeeps and #HeartFunctionNotFailure Work Together?
- No Sugar For the Heart-An In-Depth Look at the Intersection of Diabetes and Heart Failure
- The Latest Hype in Hypertrophic Cardiomyopathy
- Riddle Me This: HFpEF Explained
- The Four Pillars of Guideline Directed Medical Therapy (GDMT) in Heart Failure Management — The Tough Battle to Save More Lives Using Personalized Medicine: Joint Symposium of the Heart Failure Society of America and the American College of Cardiology
- When Do I Need Help? Advanced Heart Failure Referral in 2022
- Perfect Is the Enemy of Good: How Best to Utilize Limited Resources in the Treatment of Heart Failure Globally — A "Global Health Spoken Here" Session
- Traffic Report at the Intersection of Heart Failure and Structural Intervention
- Advances in Cardio-Oncology: From Bench to Bedside and Beyond!
- Guidelines and Beyond: Therapies for Advancing HFrEF
- Team of Teams: A Multidisciplinary Team-Based Approach to Cardiogenic Shock
- Novel Therapies in HFpEF: Drugs, Devices, and More
- "I Had COVID Months Ago, and I Still Get Winded and Tired": Persistent Cardiopulmonary Limitations post-COVID
- Heart Failure Section Highlights
- Reparative Therapies for Heart Failure: Current Status in the Basic and Clinical Arenas
- Balancing the Scales for the A-B-C-Ds of Heart Failure Diversity

## Interventional and Structural

- Cardiac Interventions and Pregnancy
- It's Not Gruentzig's Cath Lab: New Technologies for Better PCI
- Complications: Let's Manage the Misery
- Antithrombotic Controversies in Structural Heart Disease
- Coronary CTO PCI: Everything You Need To Know
- Challenges in Management of Antithrombotic Therapy
- Complex PCI Potpourri
- Top Interventional Trials of 2021: April Madness
- Antithrombotic Management in Patients With Atrial Fibrillation Undergoing PCI
- The Pump Is In and the Hard Part Begins: Post-implantation Management in MCS
- Physiology and Imaging Guided Complex PCI in Daily Practice
- Core Knowledge in Action: Transcatheter Valve Intervention – Everything But the Aortic Valve

- Pump the Jam (or Not?): Percutaneous Mechanical Circulatory Support
- Invasive Coronary Physiology in Acute Coronary Syndromes — A "Global Health Spoken Here" Session
- Joint Symposium by the Society of Cardiovascular Angiography and Interventions and the American College of Cardiology
- Practical Pearls for the Heart Team
- Complex Decision Making in Mitral Valve Disease: Joint Symposium of the Society of Thoracic Surgeons and the American College of Cardiology
- Patient Selection for MCS: Are We Undertreating, Overtreating (or Both)?
- Trends and Updates in PAD
- Challenging Clinical Cases: The “Bread and Butter” and Beyond
- Fellows Bootcamp I: Old Kids on the Block — Current Hot Topics in PCI
- Fellows Bootcamp II: New Kids on the Block — Non-coronary Interventions
- New Physiology Assessment and Emerging Concepts to Guide in the Management of Patients with Angina
- We're Late to the Party: Catching up on Late Presentation MI and Bridging the Gaps in Disparities
- Building an Endovascular Practice
- Aortic Stenosis: Coronary Physiology and Advanced Ventricular Hemodynamics
- Pulmonary Embolism Treatment
- Don't You Forget About Me: Updates in Non-Valvular Structural Heart Interventions
- Real World Impact of Innovative Interventional Technology
- Bleeding Reduction Strategies Following PCI
- TAVR: Clinical Controversies and Dilemmas
- How to Improve Outcomes for Critical Limb Ischemia
- State of the Art: MV and TV Therapies in 2022

## Ischemic Heart Disease

- Pharmacologic and Lifestyle Management for ISHD: Why Disparities in Care Matter
- Turning Up Telehealth: Opportunities for Growth in Today's Telehealth Care
- Oh My! MI in Pregnancy!! Risks, Diagnosis and Management of Pregnancy-associated Myocardial Infarction and Ischemia
- Core Knowledge in Action: What Are the Current Recommendations for Risk Stratification of Non-cardiac Surgery Patients?
- Challenges in STEMI Management in 2022
- Advancing Systems of Care For ST-Elevation Myocardial Infarction — A "Global Health Spoken Here" Session
- Left Main Revascularization: A Practical Approach

- Current Approaches to Antiplatelet Therapy for PCI in ACS & SIHD
- Cardiogenic Shock: Progress, Paradigms and Unresolved Problems
- Sticky Situations in Revascularization
- It's On Us—Incorporating Social Determinants of Health Into Our Daily Care of Patients with Ischemic Heart Disease
- ASCVD Risk Factors and Beyond
- Dissecting the Data: Discussions on the Management of SCAD
- Peri-operative Care for Non-Cardiac Surgery: Emerging Strategies and Ongoing Controversies
- What's in a Name? The Diagnosis, Treatment and Future of INOCA and MINOCA
- Advances in Cardiac Rehabilitation—Not Your Same Old Same Old
- What's Age Got to Do With It? Optimal Management of Coronary Artery Disease in the Very Old
- Alternative Therapies for Ischemic Heart Disease: Are They Really Complementary?
- Chest Pain in ED Decision Pathway
- Use and Misuse of High-sensitivity Troponin
- Guideline Update: Management of Acute Chest Pain
- Appraisal of the Revised AUC For Multimodality Imaging for SIHD
- Guideline Update: Management of Chronic Chest Pain
- Can Cardiac CT Do It ALL? The Emerging Role of Cardiac CT in Diagnosis and Management of CAD

## Multimodality Imaging

- Sore, Hot, and At Risk: The Role of Multi-modality Imaging in Systemic Inflammatory Disease
- Imaging in EP Procedures: Smoke and Mirrors?
- IT'S ALIVE! Imaging for Viability: Established Modalities and New Ideas
- The Thick Heart, Role of Echocardiography: Joint Symposium of the American Society For Echocardiography and the American College of Cardiology
- Advances in TTR Cardiac Amyloidosis Imaging
- It's Complicated! Challenging Structural Heart Disease Imaging Cases with Heart Team Panel
- Myocarditis in Competitive Athletes: Significance, Imaging Considerations, and COVID-19 Controversies
- Structural Heart Imaging for Transcatheter Valve Intervention: The Basics and Beyond
- Artificial Intelligence and Machine Learning in Cardiovascular Imaging
- COVID-19: Imaging the Cardiovascular System 2022 a Global Perspective — A "Global Health Spoken Here" Session
- High Value, High Volume Cardiac MRI: What Is Your Practice Missing to Transform Care? Joint Symposium of the Society For Cardiovascular Magnetic Resonance and the American College of Cardiology
- How Do I Match Cardiac Imaging With the Cancer Therapeutics: Timely Diagnosis of CV Toxicities

- Contemporary Clinical Topics in Cardiovascular CT: Joint Symposium of the Society of Cardiovascular Computed Tomography and the American College of Cardiology
- Expanding the Boundaries of Nuclear Cardiology in 2022: Joint Symposium of the American Society of Nuclear Cardiology and the American College of Cardiology
- Ongoing Controversies After the New Chest Pain Guidelines
- Role of Multimodality Imaging in Cardiac Sarcoidosis
- Myocardial Infarction With No Obstructive CAD (MINOCA) and Ischemia With No Obstructive CAD (INOCA): Myth or Reality in Imaging

## Pediatric and Congenital Heart Disease

- Playground Knowledge Drop: Moments That Defined My Career
- Multimodality Imaging and Team Decision-Making in Congenital Heart Disease
- When the Data Is Lacking: Debates in Arrhythmia Management in Pediatric and Congenital Heart Disease
- Around the World for Pediatric and Congenital Heart Disease Care: What We Can Learn From Each Other — A "Global Health Spoken Here" Session
- Congenitally Corrected TGA: From Fetus to Adulthood, Which Way Do We Go?
- Innovations in Treatment of Congenital Heart Disease
- Non-cardiac Disease in Congenital Heart Disease Across the Lifespan: Are We Missing Something?
- Valve Therapy: The BEST Next Step on the Management of This Patient Is....
- Cardiac ICU: Team-based Approach to Complex Patients
- Challenges in Congenital Heart Management and Interventions: A Team Perspective
- Back to the Basics: Transforming Our Approach to Heart Failure
- Novel Team Collaborations Solving Challenges in Cardiac Care and Featuring the Dan G. McNamara Keynote
- Individually, We Are One Drop. Together, We Are an Ocean: Optimizing Surgical Outcomes Through Teamwork
- Heart Failure MCS in Children & Young Adults: Friend or Foe

## Prevention and Health Promotion

- Innovations in Cardiac Rehab and Lifestyle Interventions
- Beyond Lifestyle: Next Steps in Obesity Management
- Early-Onset Myocardial Infarction with Normal LDL Cholesterol: Work-Up and Prevention Featuring the 2022 Douglas P. Zipes Award Keynote

- Hot Topics in Hypertension: Advancing Care to Increase Blood Pressure Control and Improve Cardiovascular Outcomes
- Adventure Across the Lifespan — Dyslipidemia Management For the 21st Century: Joint Symposium of the National Lipids Association and the American College of Cardiology
- Putting Out the Forest Fires: Management of Inflammation in Cardiovascular Disease
- Cardio-ObsteTRICKS = How Should a Pregnancy History Guide Promotion of CV Health
- Lowering LDL-C: New Goals, New Tools to Achieve Them
- The Global Burden of Hypertension: An International Session on Blood Pressure Control and Cardiovascular Disease Prevention — A "Global Health Spoken Here" Session
- Triglyceride-Rich Lipoproteins: Mediator or Marker of Risk?
- Overcoming Real World Obstacles to Cardiovascular Prevention Globally
- Core Knowledge in Action: The ABCDEs of Heart Disease Prevention
- ABCD of Cardiovascular Prevention — Unanswered Questions and Unquestioned Answers: A 75-minute Stateside Chat With Experts
- Finding the Sweet Spot for SGLT2 and GLP-1 Use in Cardiovascular Prevention
- Special Populations and Challenges in Lipid Management
- Lipoprotein(a) and HDL: Should We Pay Attention?
- Challenges in Hypertension Management: A Case Based Discussion with the Experts
- Chaat Masala: The Risk-Enhancing South Asian Ancestry
- Cardiometabolic Clinics: The Time Has Come
- Neurocardiology Collaborations in 2020's: Rationale, Goals and Prospects
- Prevention and Health Promotion Highlights

## Pulmonary Vascular Disease

- What Would You Do? Managing Special Populations With Pulmonary Hypertension
- The Right Ventricle in Crisis: Pre-operative Evaluation and Management of the Critically Ill Patient With Pulmonary Arterial Hypertension
- A Whole New World in Pulmonary Hypertension: Randomized Clinical Trial Updates For 2022
- Pulmonary Hypertension 101: A PH Primer for the General Cardiologist
- The Acquired Determinants of Disease in Pulmonary Arterial Hypertension — A "Global Health Spoken Here" Session
- Back to the Future: Old Drugs With a New Purpose in PAH

## Special Topics

- ACC.22 Opening Showcase
- Future of Peer-Reviewed Publishing From the *JACC* Journal Editors
- Emerging Cardiovascular Subspecialties From *JACC: Advances*
- Cardiovascular Research in Asian-Specific Populations: Lessons From *JACC: Asia*
- My Worst and Best Case Scenario from 2021 From *JACC: Case Reports*
- Clinical Cases Put Guidelines into Perspective From *JACC: Case Reports*
- The Role of Multidisciplinary Team From *JACC: Case Reports*
- Optimizing Your Research Tools – Exploring The Hypothesis Beyond Clinical Trials!
- Ethics in Cardiovascular Care
- Friends With Benefits (and Risks) How Can Industry Affect My Practice?
- Introduction Into AI and Machine Learning
- Best Practices in Parental Leave During Cardiology Fellowship
- Joint American College of Cardiology/Journal of the American College of Cardiology Late-Breaking Clinical Trials
- Joint American College of Cardiology/Journal of the American Medical Association Late-Breaking Clinical Trials
- Joint American College of Cardiology/New England Journal of Medicine Late-Breaking Clinical Trials
- Late-Breaking Clinical Trials IV
- Late-Breaking Clinical Trials V
- Featured Clinical Research I
- Featured Clinical Research II
- Featured Clinical Research III
- Late-Breaking Clinical Trials Deep Dive I
- Late-Breaking Clinical Trials Deep Dive II
- Lifestyle Medicine Intensive Session I: Moving Beyond Theory to Practice Featuring the 53rd Annual Louis F. Bishop Keynote
- Lifestyle Medicine Intensive Session II: Moving Beyond Theory to Practice
- Cases From the Guidelines For Clinicians
- Cardiovascular Disease and Cognitive Impairment: What the Cardiovascular Provider Needs to Remember
- The State of Cardiovascular Workforce: Global Insights and Solutions on Discrimination, Harassment, and Racism
- Coronary Artery Disease – Atherogenesis, Acute Coronary Syndromes and Stroke: Cardiovascular Update for the Clinician I, A Symposium by Valentin Fuster
- Myocardial Disease and Heart Failure – Imagenomics, Pharmacology and Devices: Cardiovascular Update For the Clinician II, A Symposium by Valentin Fuster

- Electrical Disorders – Challenges in 2022: Cardiovascular Update For the Clinician III, A Symposium by Valentin Fuster
- Structural Heart Disease – Challenges in 2022: Cardiovascular Update For the Clinician IV, A Symposium by Valentin Fuster
- Pharmacology Session I: Anticoagulation and Device Management Strategies in Mechanical Circulatory Support
- Pharmacology Session II: No Longer Failing to Treat Heart Failure — Optimizing Therapy With Newer Pharmacologic Agents
- Pharmacology Session III: Cardiovascular Pharmacology Potpourri – From Weight Loss to Cardio Oncology
- Role Models, Mentors, and Sponsors and Why We Need to Be All of Them
- Is the Quality of Cardiovascular Research Declining? What Research Should Continue to be Pursued? Featuring the James T. Dove Keynote — A JACC Journals Session
- International Perspectives I: Seismic Changes in Novel Therapies For CVD Management and Risk Reduction — Joint Symposium of the European Society of Cardiology and the American College of Cardiology
- Promoting Cardiovascular Workforce Building and Resilience For Diverse Racial and Ethnic Groups in Cardiovascular Medicine: Joint Symposium of the Association of Black Cardiologists and the American College of Cardiology
- Bridging CV Quality Gaps Using Technology in Developing Healthcare Systems
- Renaissance in Hypertension Control: Is 130 Finally the New 140? Joint Symposium of the American Heart Association and the American College of Cardiology
- Cardiovascular Sequelae of COVID-19 in Adults: Myocarditis and Myocardial Involvement, Post-acute Sequelae, and Return to Play
- The European Heart Journal's Year in Cardiovascular Medicine: Joint Symposium of the European Society of Cardiology and the American College of Cardiology II
- Best of JACC Journals: Panel Discussion With the Editors
- 2022 Eugene Braunwald Keynote
- Shared Decision Making and Competitive Sporting Participation: How I Counsel My Athletic Patient With Heart Disease
- Sports and Exercise Highlights
- 71<sup>st</sup> Annual Convocation

## Valvular Heart Disease

- Mi TAVI Es Su TAVI? TAVI Around the World — A "Global Health Spoken Here" Session
- The Heart Valve Team: Good, Bad, and Ugly
- Controversies in Valvular Heart Disease — A Case-Based Approach: Joint Symposium of the American Association For Thoracic Surgery and the American College of Cardiology
- Diagnosing Valvular Heart Disease: Throw Away Your Stethoscope!
- Treat the Whole Patient, Not Just the Valve
- Like A Rock: Conundrums in Calcific Mitral Valve Disease
- Procedural Planning for Valvular Heart Disease, a Focus on Mitral and Tricuspid Valves: The Before and After
- Anticoagulation Agents in Valvular Heart Disease
- Mitral Regurgitation: Overview and Controversies
- Tricuspid Valve: The New Frontier
- Ethics and Resource Utilization in Valve Disease Intervention in Nonagenarians

## Vascular Medicine

- Contemporary PAD Treatment: A Simplified Approach to A Complex Problem
- Diagnosis and Management of Aortic Disease
- Paging the PERT Team! Intermediate and High-Risk PE Cases With the Experts
- Vascular Medicine Consult: An Expert's Approach
- Addressing Health Disparities in Lower Extremity PAD
- Risk Stratification in PAD: Who Is the High Risk Patient? — A "Global Health Spoken Here" Session
