

Renal Denervation: A Workshop For the Hypertension Care Team

April 5, 2024

Hyatt Regency Atlanta, Hanover Hall | April 5, Noon – 6:30 P.M.

Noon **Doors open for lunch**

WELCOME AND INTENT

- 1:00 p.m. **Chair's Welcome** Kreton Mavromatis, MD, FACC
Mladen Vidovich, MD, FACC
- 1:10 p.m. **Hypertension in the Community and its Treatment** Debbie Cohen, MD
Review the prevalence of hypertension among the patient population, considering the guidelines as well as definitions, prevalence, and causes.
- 1:40 p.m. **Renal Denervation Review and Clinical Trial Experience:** Rajesh Swaminathan, MD, FACC
Present the latest data and evidence on renal denervation clinical trials.
Taisei Kobayashi, MD, FACC
Thomas Todoran, MD, FACC
- **Overview**
 - **Radiofrequency ablation**
 - **Ultrasound ablation**

2:30 p.m. **10 min BREAK**

BUILDING A RENAL DENERVATION PROGRAM

- 2:40 p.m. **Guideline Review** Rajesh Swaminathan, MD, FACC
Explore and review relevant guidelines and the importance of training and credentialing a hypertension care team.
- 3:00 p.m. **Patient selection** Debbie Cohen, MD
Considerations for patient screening and discuss the patient shared decision-making process.
- 3:15 p.m. **10 min BREAK**
- 3:25 p.m. **The Procedure - Radiofrequency ablation** Taisei Kobayashi, MD, FACC
Highlight the procedural experience, focusing on key clinical and procedural decision-making.
- 3:55 p.m. **The Procedure - Ultrasound ablation** Thomas Todoran, MD, FACC
Highlight the procedural experience, focusing on key clinical and procedural decision-making.

Renal Denervation: A Workshop For the Hypertension Care Team

April 5, 2024

- 4:25 p.m. **Follow-up** Debbie Cohen, MD
Things to consider patient's follow-up including expectations, frequency, and testing.

SPLIT GROUP: DEMO STATION/CASE-BASED LEARNING

4:35 p.m. **GROUP ROOM SWAP 5 min**

- 4:40 p.m. **GROUP A: Case-Based Learning** (Hall F)
- Case 1: Uncontrolled Hypertension – GDMT
 - Case 2: Uncontrolled or Resistant Hypertension – Radiofrequency
 - Case 3: Uncontrolled or Resistant Hypertension – Ultrasound ablation
 - Case 4: Refractory Hypertension
- Moderators:**
Kreton Mavromatis, MD, FACC
Mladen Vidovich, MD, FACC
- Speakers:**
Rajesh Swaminathan, MD, FACC
Taisei Kobayashi, MD, FACC
Thomas Todoran, MD, FACC
Debbie Cohen, MD
- GROUP B: Demo Station*** (Hall D)
Several live simulation demonstration stations will provide participants with the opportunity to explore and learn about renal denervation technology.

5:20 p.m. **GROUP ROOM SWAP 5 minutes**

- 5:25 p.m. **GROUP A: Demo Station*** (Hall D)
GROUP B: Case-Based Learning (Hall F)

GETTING STARTED AT THE VA

- 6:05 p.m. **Getting started at the VA** Antonio Gutierrez, MD
From getting approval, to setting up a hypertension clinic, and beyond.
- 6:20 p.m. **Panel Discussion with Audience Q&A**
- Co-Chairs:**
Kreton Mavromatis, MD, FACC
Mladen Vidovich, MD, FACC
- Panelists:**
Debbie Cohen, MD
Thomas Todoran, MD, FACC
Rajesh Swaminathan, MD, FACC
Taisei Kobayashi, MD, FACC
Antonio Gutierrez, MD

* Please note: This demonstration does not replace manufacturer required training.
