

Creating a Block Schedule

Lisa Schirtz-Carroll, BS C-TAGME
Cardiology Fellowship
Administrator

 I STILL have no financial relationships with any commercial interest related to the content of this presentation

Goals and Objectives

 Participants will have a better understanding of creating a block schedule by working off their rotation schedule.

Block Schedule

- Two common models of the block diagram exist:
- the first is organized by month; the
- second divides the year into 13 fourweek blocks

- Must indicate how vacation time is taken.
 - can be done by allocating a time block to vacation, or by indicating this in a "Notes"
 - Include the participating site in which a rotation takes place – Correlates with ADS site number
 - Name of the rotation

Sites:

- 1 SUNY Upstate Medical University
- 2 VA Medical Center
- 3 Crouse Hospital
- 4 St. Joseph Hospital
- * Denotes when vacation may be scheduled

 If structured outpatient time – the percentage of time in clinics should be noted.

Sites:

- 1 SUNY Upstate Medical University
- 2 VA Medical Center
- 3 Crouse Hospital
- 4 St. Joseph Hospital
- •Denotes when vacation may be scheduled
- Continuity Clinic is held every Wednesday Afternoon
- Research If other duties are performed while on research – must be noted.
