

EP Live Case on Sep 1st 8:00pm-12am

Shanghai Chest Hospital, Shanghai Jiaotong University,

上海市胸科医院

Shanghai Chest Hospital, a Level III A specialized hospital, a hospital that integrates medical care, physician training, and clinical research, has been serving patients in Shanghai and other areas across China since 1957. Shanghai Chest Hospital is one of the teaching hospitals affiliated with Shanghai Jiaotong University in China.

The cardiac arrhythmias team at Shanghai Chest Heart Center includes some of the leading experts in the field of electrophysiology in China. In 2019, the cardiac electrophysiology team at Shanghai Chest Hospital, comprised of 18 faculty members, performed more than 3,000 cases, including over 2,500 A-Fib catheter ablations. The electrophysiology team at Shanghai Chest Hospital is renowned for their integrated approach to individualized interventional treatment for patients with atrial fibrillation.
