

EP Live Case Show

Fudan University, an Affiliate of Zhongshan Hospital

Hospital Introduction

Zhongshan Hospital, a Budget Management Unit under the National Health and Family Planning Commission, is a comprehensive teaching hospital affiliated with Fudan University. Founded in 1937, the hospital was the first large-scale general hospital managed by the Chinese people. It was previously affiliated with Shanghai Medical College. After 80 years of development, the headquarters of Zhongshan Hospital now has 1,905 regular hospital beds. In 2015, the hospital treated **3,477,800** outpatient and emergency visits, discharged **99,000** patients and received **69,800** hospitalized patients for surgery. Among the 4,000-person hospital staff, there is one Academician of the Chinese Academy of Sciences, two Academicians of the Chinese Academy of Engineering and nearly six-hundred staff members with senior professional titles.
