ACC'S EDUCATIONAL ACTIVITIES

**THE RESOURCES YOU NEED TO STAY
UP-TO-DATE, LICENSED, AND CERTIFIED!**

See inside
for details!

ACC Education 
Always Learning.

Inside:

- 2** **Product** Descriptions
- 8** ACC Drill and Practice Programs
- 10** Educational Courses & Conferences
- 12** Online Courses
- 14** Accreditation Information for Self-Assessment Programs

Meet ACC's Line of Self-Assessment Programs (SAPs)

ACCSAP
CathSAP
EchoSAP
EPSAP
HFSAP

Each of these SAPs is a great resource for:

Perfecting your knowledge of the field – Use SAPs to identify your knowledge gaps, reinforce your existing knowledge, and learn new information.

Earning CME/MOC/ECME credit. Each SAP offers enough CME credit and MOC points in Medical Knowledge for all your licensing and certification requirements.*

Preparing for the Boards and other exams. Use these programs to prepare for the Boards – simulate taking a Board exam, practice with hundreds of questions that include rationale, references, and links to related text, learn from educational text and lectures, and identify your knowledge gaps so you can plan additional study.

What's New About These SAPs?

- **Regular updates.** These SAPs are updated yearly!
- **Improved access model.** Your purchase now gives you dedicated access for multiple years and includes the yearly updates mentioned above. No more guessing about which version you should buy to meet your needs/timeline.
- **Better pricing.** The previous versions of ACCSAP & CathSAP cost \$400 per year. This version is only \$300 per year – a 25% savings!
- **ECME credit and Canadian MOC credit** are now available for users outside the US.
- **An enhanced quiz engine** lets you easily highlight and bookmark questions so you can revisit them later.
- **New print options** let you print text and/or questions at your convenience.
- **An improved App** lets you access SAPs offline and on the go.

What Popular Features are Returning?

- Convenient online format gives you easy access from anywhere.
- Educational material in both text and video format allows you to learn by reading or watching/listening to a presentation. Did you know that ACCSAP and CathSAP includes all the lectures from ACC's Board Review courses?
- Even better questions*:
 - Challenge yourself with questions that are ALL case-based rather than simple knowledge questions.
 - Create custom quizzes and simulate Board exams to personalize your learning.
 - Link from each question to its related text so you can quickly and easily learn more on that subject.

EchoSAP

Echocardiography Self-Assessment Program

EchoSAP is a great study tool for the echo Boards and a trusted source of echo CME credit! It features:

- A **comprehensive syllabus text** covering the core curriculum of echocardiography. Each portion of the syllabus is supplemented with relevant case studies so you can practice applying what you learned.
- Access to **100+ cases** ranging from basic to advanced.
- **Hundreds of upgraded Board-style questions** written by experts who have been trained in the art of question writing. Mix and match these questions to meet your needs with our new Build-A-Quiz feature.
- **Hundreds of echo images**, both moving and still.
- Alignment with ASE guidelines and the National Board of Echocardiography's exam blueprint.
- **All the CME credit you need** to meet ICAEL CME requirements for echo lab physicians.
- Regular online updates keep you continuously updated and allow you to spread your CME/MOC credit over the years as necessary. Your purchase gives you 3 years of access.

Drill and Practice Product

THIS PRODUCT HELPS YOU
Prepare for the Boards

Recent research reveals that cardiologists fail to identify more than half of basic murmurs and about 35% of advanced murmurs.
HEART SONGS CAN HELP!

ECG Drill & Practice

Three convenient modes let you use this product in whatever way best meets your needs.

Learn Mode: Teaches you how to recognize/differentiate various types of ECGs.

Drill/Practice Mode: Features ECG “flash cards” that you can practice interpreting. Turn each card over to see the answer and explanation.

Perform Mode: Gives you practice interpreting ECGs using the ABIM’s interpretation list and lets you compare your answer to the experts.

ACC EDUCATIONAL COURSES & CONFERENCES

ACC hosts educational courses and conferences on a broad range of clinical topics aimed at providing high quality education to guide you through the latest practice-changing science and to support our mission to transform cardiovascular care and improve heart health. Don't miss the upcoming 2022 courses and conferences.

Learn more at [ACC.org/Courses](https://acc.org/Courses).

Advancing the Cardiovascular Care of the Oncology Patient

February 11 – 12, 2022 • Virtual

Course Directors: Ana Barac, MD, PhD, FACC
Bonnie Ky, MD, FACC

Join Cardio-Oncology leaders as they provide you with the best practices and emerging strategies needed in your everyday practice! This educational experience provides clinicians and researchers with the tools needed to improve patient care in your everyday practice. Register today to stay on the leading edge of this rapidly evolving field!

Cardiovascular Summit

February 17 – 19, 2022

Course Directors: Howard Walpole, MD, MBA, FACC
Cathleen Biga, MSN, RN, FACC
Geoffrey Rose, MD, FACC

Join us for this premier conference where quality and finance intersect and where the CV team can learn and share the best methods for delivery of care while aligning well-being for the entire team. Learn CV management and leadership strategies and discover how to align strong leadership with effective business strategies to improve CV care and patient outcomes.

ACC.22: ACC's 71st Annual Scientific Session & Expo

April 2 – 4, 2022 • Washington, DC

ACC.22 is your time to experience the latest science, innovation and practice changing updates in care taught by our expert faculty, a cutting-edge Expo with the latest cardiovascular innovations, and our signature Lounge & Learn Pavilion offering the opportunity to network with colleagues in a safe and healthy environment!

Can't join us in-person? Join us virtually for a robust and engaging experience with 6 channels of sessions streamed in real-time.

ACC Asia 2022 Together With KSC Spring Conference

April 15 – 16, 2022 • Gyeongju, South Korea

Conference Chairs: Fred M. Kusumoto, MD, FACC
Eugene Yang, MD, MS, FACC

Join us for an innovative educational experience that will strengthen your everyday practice. This course is designed to deliver an engaging forum to critically examine evidence-based strategies, contemporary best practices and clinical decision-making targeted to your region.

ACC Latin America 2022 Together With CardioAcademic

May 27 – 28, 2022 • Mexico City, Mexico

Conference Chairs: B. Hadley Wilson, MD, FACC
Juan Aranda, Jr., MD, FACC

Come together with global experts to exchange ideas on the cutting edge of cardiovascular prevention and care. Critically examine evidence-based strategies, contemporary best practices and clinical decision-making to reach our common objective of improving the heart health of patients with cardiovascular disease.

ACC Quality Summit

September 14 – 16, 2022 • Los Angeles, CA

Join your registry and accreditation colleagues for an interactive course that delivers best practices through exceptional education sessions, networking, and posters – plus discover tools and techniques to improve health care quality within your organization!

ACC Middle East 2022 Together With 13th Emirates Cardiac Society Congress

October 6 – 8, 2022 • Dubai, UAE

Conference Chairs: Khaled M. Ziada, MD, FACC
Ibrahim Helmy, MD, FACC, FACP

Designed to deliver an engaging forum to critically examine evidence-based strategies as well as contemporary best practices. Don't miss an incredible lineup of faculty sharing global perspectives on real-world approaches to guideline-driven care that will improve your clinical decision-making and the lives of your patients!

New York Cardiovascular Symposium

December 9 – 11, 2022

Course Director: Valentin Fuster, MD, PhD, MACC

Join cardiovascular luminaries for a discussion of thought-provoking topics including the year's ground-breaking scientific advances, their clinical practice application, and how the future of medicine will improve patient care. Hear from experts as they translate the latest science into your daily practice!

ACC ONLINE COURSES

ACC Online Courses offer the cardiovascular community a FREE collection of resources and newly developed, evidence-based educational activities across topics such as mitral regurgitation, the influenza vaccine and CVD, SGLT2i's, and hypertrophic cardiomyopathy.

Stay up to date on the latest guidelines and learn at your own pace through various learning formats including infographics, expert analysis, podcasts, and interactive learning modules.

Learn more at [ACC.org/OnlineCourses](https://www.acc.org/OnlineCourses).

CardioNutrition

Nutrition can be the most effective tool at a cardiologist's disposal. Join us for a journey through macronutrients, an examination of trendy dietary patterns, guidelines, and practical ways to weave nutrition recommendations into clinical practice.

Severe Aortic Stenosis: Essentials for Assessment and Diagnosis

Learn the latest evidence-based strategies for assessment and diagnosis of patients with severe aortic stenosis. Hear perspectives from the experts and test your knowledge.

HCM: Guideline-Driven Care

Hypertrophic cardiomyopathy (HCM) is one of the most common genetic cardiovascular diseases. Access resources and education to address knowledge gaps in the identification and appropriately managing HCM to reduce the burden of disease progression.

Arrhythmia Detection Toolbox

Increase awareness and knowledge on the various types of devices, their strengths and limitations, and appropriate selection of patients who may benefit from cardiac monitoring.

Understanding Cardiac Amyloidosis

Build greater awareness of the prevalence and diagnosis of cardiac amyloidosis and advancements in imaging technology and treatment, and improve differential diagnosis and expedite referral and treatment.

Managing AFib and BTK Inhibitors

Understand the importance of assessing risk, monitoring, and managing AFib and other CV risk factors for cancer patients focused on the treatment for chronic lymphocytic leukemia/lymphoma.

Understanding and Managing MR

Improve knowledge in the assessment of Mitral Regurgitation to determine etiology, mechanism and severity to guide timely and optimal intervention strategies and advance patient care.

Flu and Cardiovascular Disease

Gain actionable knowledge regarding the connection between influenza and CV outcomes and the role the CV care team plays in directing patients to receive vaccinations.

CLINICAL SPOTLIGHT SERIES

Learn best practices and emerging science across practice-changing topics in care including women's health, SGLT2i's, new nonstatins, hypertrophic cardiomyopathy and cardiac amyloidosis.

Lipid Lowering Strategies

Learn to address risk assessment in ASCVD, LDL-C lowering therapies, the science behind PCSK9 inhibitors and how to develop a guideline-driven treatment plan that optimizes therapy for ASCVD patients.

HCM Awareness

Improve the diagnosis and appropriate treatment of patients with hypertrophic cardiomyopathy to reduce the burden of disease progression.

CV Risk in Diabetes

Learn the emerging science behind the incorporation of SGLT2i's and GLP-1RA's into cardiology practice and best practices for improving coordination of care among a multidisciplinary team.

Accreditation Information

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

Joint Accreditation Statement

In support of improving patient care, the activities in this catalog have been planned and implemented by the American College of Cardiology Foundation (ACCF). ACCF is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physicians

CME

The ACCF designates each enduring material for the number of *AMA PRA Category 1 Credits™* listed in this catalog. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOC

Successful completion of a CME activity indicated for MOC in this catalog, which includes participation in the evaluation component, enables the participant to earn Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

ECME Information

Select Self-Assessments Programs are accredited by the European Board for Accreditation in Cardiology (EBAC). Each participant should claim only those hours of credit that have actually been spent in the educational activity. The Accreditation Council for Continuing Medical Education (ACCME) and the European Board for Accreditation in Cardiology (EBAC) have recognized each other's accreditation systems as substantially equivalent. Apply for credit through the post-course evaluation.
