

Abstract Submission Instructions

Thank you for your interest in submitting an abstract to **ACC Asia 2023**. Please read the following instructions carefully.

- Section 1** walks you through the submission process on the portal.
- Section 2** has important information for you after your submission is complete.

SECTION 1: SUBMITTING YOUR ABSTRACT ON THE ACC PORTAL You can begin your abstract submission by visiting the Abstracts section of the ACC Asia 2023 site. Once you are redirected to the submission portal, you will need to log into your ACC account. If you do not have an ACC account, you can create one for free.
Tab 1: Title - Abstract titles will be in all CAPS. The system will automatically convert all letters to caps after you click the “Save and Continue” button. - DO NOT: - Bold, italicize, underline, superscript or subscript any items in the title. - Include authors or institutions in the title. If you do, they will be removed. - Use the “Enter” button in your title. This action will add hard returns, which are not allowed. - Use abbreviations unless they are commonly known. - End the title with a period. - Use a comma before “and” in a series. - Use quotation marks in a title. - DO: - Use a comma for number 1,000 and above. - Substitute a colon for a dash/hyphen except when using prefixes. - Hyphenate the first prefix word when there is more than one prefix word used such as Non- Anti...
Tab 2: Category Submit your abstract to one of the following categories, based on its area of research. Abstracts submitted to a category that do not match the subject matter of the abstract may be given a low score from reviewers. - Electrophysiology - Heart Failure and Cardiomyopathies - Interventional and Structural - Ischemic Heart Disease - Multimodality Imaging - Prevention and Health Promotion - Valvular Heart Disease

Tab 3: Abstract Text

Body/Text:

- Abstracts **MUST** conform to specific size limits, or they will remain in an incomplete status and will not be reviewed.
- Your abstract may not contain more than 1,900 characters, **not including spaces**. A graphic, table or image equals 600 characters and is included as part of the 1,900-character limit.
- You may type the body of the abstract directly into the space provided for the abstract body. Upload graphics or images separately. If you paste text from another document (like a Word document), please paste as plain text.
- Do **NOT** place hard returns at the end of each line.
- You may use five unique abbreviations in the body of the abstract. Spell out the complete phrase followed by the abbreviation in parentheses the first time the abbreviation is used. Only commonly known abbreviations are allowed in the title of the abstract.
- Do not include the title in the abstract body. The title will be collected in the **Title** tab.
- Do not include authors and institutions in the abstract body. This data will be collected in the **Author** tab.
- The abstract must be presented in the following sequence, using the headings listed:
 - **Background:** In an initial paragraph, provide relevant information regarding the background and purpose of the study, preferably in no more than one or two sentences.
 - **Methods:** Briefly state the methods used.
 - **Results:** Summarize the results in sufficient detail to support the conclusions.
 - **Conclusion:** State the conclusions reached. It is not satisfactory to state “the results will be discussed.”
- Please proofread carefully for factual, spelling, and size errors. If accepted, the abstract will be printed in meeting materials exactly as it appears on the online submission system confirmation page.

Adding An Image to Your Submission:

- On the Abstract tab, you can upload a picture, table and/or graph as an image.
- Each image must be saved as file type of “gif” or “jpeg.” Even though the abstract system may allow you to upload a graphic with a different file type those graphics will not be reviewed or reproduced if the abstract is selected.
- Each image equals 600 characters and is included as part of the 1,900-character limit.
- Please keep in mind that large and/or complex graphics may not be readable in print or electronic formats.

Tab 4: Clinical Implications

- In a couple of sentences, state the main clinical implications (or significance) of your study.
- This information may be used as discussion points in educational activities.
- If your abstract is accepted, the clinical implications will not be included in meeting materials as part of your abstract. However, abstract reviewers will see it during the review process.
- This section does not count as part of the 1,900-character limit.

Tab 5: Author

- To add an author to your author block, please try looking up the person by LAST NAME or EMAIL in the ACC database by using the “Add Author” link in the **Author** tab. There are additional instructions and helpful hints on finding your co-authors in our database on the portal.
- Use the author group field only for the name of an investigating team. This is typically something like “Investigators for Heart Health.” Do not use the author group to list individual authors. If this is done, you will be contacted to correct this entry. Authors entered as an “Author Group” will not be listed in the author index of the onsite programs.
- The author order is the order that authors will be listed in meeting materials if the abstract is selected for presentation.
- Up to 25 authors can be listed as part of an author block, including the submitter and the group name of an investigating team.
- If you need to change the first author, please contact Holly Santry (hsantry@acc.org) directly.

Tab 6: Institution Information/Lead Investigator

- Up to two institutions will be printed in your author block. These institutions are entered into the portal using the **Institution Information** tab.
- Please select the lead investigator for your abstract. This person must be part of your author block and can be the submitter.

Tab 7: ACC Travel Award

- Please answer the 5 questions to determine your eligibility for a travel award to ACC.24 in Atlanta, Georgia.

Tab 8: Review My Work/When Is A Submission Considered Complete?

- A submission is complete and ready for submission when, in the **Review My Work** section, you see the words “This submission is complete.”
- It is only submitted to reviewers after the deadline date. You may update or make changes to your abstract up until 11:59 PM PHST on Tuesday, 20 June 2023.
- The date your submission was last edited may be found in the **Review My Work** tab next to the words “Current Date/Time.” This will change each time there has been an alteration.
- From the **Review My Work** page, you can send yourself a confirmation of your submission and print a completed version of your submission.
