

Dear Advances in Hypertrophic Cardiomyopathy Roundtable Participants,

Thank you for accepting the invitation to participate in the American College of Cardiology’s (ACC) virtual Heart House Roundtable titled “Advances in Hypertrophic Cardiomyopathy” on Tuesday, June 8, 2021. As an esteemed participant, you are joining representatives from several medical specialty societies, industry, health systems, and other stakeholder groups to discuss challenges in hypertrophic cardiomyopathy management. Your engagement in this initiative will help the American College of Cardiology (ACC) as we make strides toward improving patient outcomes.

The goal of this Roundtable is to address the practical issues and key clinical questions facing clinicians in managing and treating hypertrophic cardiomyopathy. Participants will consider the roles of interdisciplinary and intersystem treatment, standard and novel therapeutics, and opportunities in population health. Through these discussions, we hope to identify and address opportunities and challenges in the delivery of guideline-directed care, as well as to define forward looking patient-focused innovations. The aim of this meeting is not to reach consensus; we aim to uncover the challenges faced and hope to explore ideas of how the ACC can better serve clinicians and patients in managing hypertrophic cardiomyopathy.

Heart House Roundtables are designed to encourage interactive and thoughtful discussion. As shown on the enclosed agenda, the day will be organized into two sessions. After brief presentations on each topic, participants will work together in small groups to review discussion questions through interactive breakout sessions, then reconvene to share their collective thoughts with the full group.

In preparation for the meeting, we have assembled briefing materials comprised of important information that we believe will provide essential background for discussion at the Roundtable. These materials also include the agenda and discussion questions. We hope that you will have the opportunity to familiarize yourself with these materials before the meeting to facilitate productive discussions. On behalf of the ACC, we look forward to your participation and welcoming you to this virtual convening.

Sincerely,

Olivia N. Gilbert, MD, MSc, FACC
Chair, Advances in Hypertrophic
Cardiomyopathy Roundtable

Daniel Jacoby, MD
Vice-Chair, Advances in Hypertrophic
Cardiomyopathy Roundtable

President

Dipti Itchhaporia, MD, FACC

Vice President

Edward T. A. Fry, MD, FACC

Immediate Past President

Athena Poppas, MD, MACC

Treasurer

Christopher M. Kramer, MD, FACC

Secretary and Board of Governors Chair

Joseph Edward Marine, MD, MBA, FACC

Board of Governors Chair-Elect

Malissa Jane Wood, MD, FACC

Trustees

Cathleen Biga, MSN, RN, FACC
