

MANAGEMENT OF PATIENTS WITH HEART FAILURE

Nasrien E. Ibrahim, MD, FACC, FAHA, FHFSA

Assistant Professor of Medicine, Harvard Medical School

Heart Failure & Transplant Cardiologist, Massachusetts General Hospital

DISCLOSURES

- Novartis- honoraria
- Roche- honoraria

MEDICATION MANAGEMENT

- ARNI/ACEi/ARB
- Beta blockers
- MRA
- Diuretics

VIRTUAL VISIT #1

- Able to connect via video
- 71W, retired college professor
- Graphs BP, weight
- PA pressure sensor
- Home VNA

VIRTUAL VISIT #2

- Telephone only visit
- 78M, retired engineer
- Spanish-speaking only
- No remote monitoring devices

VIRTUAL VISIT #3

- Telephone only
- 57W, physician
- Feels well, weight stable
- Creatinine, NT-proBNP up
- Biosensing device

HEART TRANSPLANT

- Pre-transplant evals
- Endomyocardial biopsy
- Molecular tests
- Fresh transplants
- Symptoms

A close-up photograph of a metallic LVAD driveline. The device features a series of concentric rings and a central shaft. A white rectangular box is overlaid on the image, containing the text "LVAD" in a bold, sans-serif font.

LVAD

- Pre-LVAD evals
- Anticoagulation
- Driveline site
- Fresh implants
- Symptoms

Equality

The assumption is that **everyone benefits from the same supports**. This is equal treatment.

Equity

Everyone gets the supports they need (this is the concept of "affirmative action"), thus producing equity.

Justice

All 3 can see the game without supports or accommodations because **the cause(s) of the inequity was addressed**. The systemic barrier has been removed.

THANK YOU
