TELEHEALTH: THE INTERSECTION OF TECHNOLOGY AND HEALTH CARE

THURSDAY, JULY 2

With the outbreak of COVID-19, many outpatient clinics and facilities find themselves not prepared for regular telehealth visits. The health care establishment has scrambled to establish screening protocols, cancel elective medical care and plan for urgent and critically ill individuals. Clinical acumen will guide who is high-risk and needs to avoid exposure, and which at-risk patients need evaluation. The goal of this Roundtable is to gain a better understanding of the challenges, needs and actions required to effectively manage cardiovascular patients remotely. Discussions at the meeting will focus on telehealth practices for the management of patients with heart failure and secondary prevention of high-risk patients with ASCVD as well as identify ways the ACC can work towards supporting a high-value telehealth strategy for the cardiovascular community, extending beyond COVID-19.

HEART HOUSE ROUNDTABLES

The Heart House Roundtables explore the practical issues that clinicians and patients face every day within high-value clinical areas. Roundtables gather a diverse group of experts representing a wide variety of professional societies relevant to a specific topic, as well as other key stakeholders such as patients, federal agencies, health plans, integrated health systems and others as identified. The diversity of expertise is critical to the success of the roundtables, which provide a valuable forum for interactive and facilitated discussion on important issues. These meetings are designed to optimize in-depth discussion that not only identifies and clarifies the issues, but also allows participants the opportunity to brainstorm possible solutions.

For more information, visit [ACC.org/HeartHouseRoundtables](https://www.acc.org/HeartHouseRoundtables).

THE ACC COMMITMENT TO COVID-19 AND CARDIOVASCULAR HEALTH

The ACC is committed to rapidly responding to COVID-19 and the very real challenges it poses to CV health by bringing together multiple stakeholders to provide important clinical guidance, enduring educational resources and more.

Since the outbreak, the ACC has become the “go-to” source for clinical information related to COVID-19 and CV disease with its online **COVID-19 Hub**. This hub is a cross-College collaborative effort, drawing on the expertise and contributions of a wide range of ACC committees, councils, sections, *JACC* Journals, and individual experts.

As the COVID-19 pandemic continues, the ACC is playing a critical role in commissioning, organizing, and disseminating clinical guidance to cardiovascular clinicians and other health care workers worldwide. This work will only continue, with the goal of learning from today in order to prepare for a better tomorrow.

For more information, visit [ACC.org/COVID19](https://www.acc.org/COVID19).

AGENDA

Thursday, July 2, 2020

8:00 a.m.	WELCOME <i>Athena Poppas, MD, FACC; ACC President</i>
8:05 a.m.	Overview of Roundtable and Introductions <i>Ami B. Bhatt, MD, FACC and Jason H. Wasfy, MD, MPhil, FACC; (Co-Chairs)</i>
8:20 a.m.	SESSION 1: USE OF TELEHEALTH IN CARDIOLOGY PRACTICE DURING THE COVID-19 ERA <ul style="list-style-type: none">• Secondary Prevention for the High-Risk ASCVD Patient <i>Ankitkumar K. Patel, MD, MPH, RPVI, FACC</i>• Management of Patients with Heart Failure <i>Nasrien E. Ibrahim, MD, FAHA, FHFSA, FACC</i>• Interactive Breakout Session (45 minutes)• Report Back to Full Group (30 minutes)
9:55 a.m.	BREAK
10:00 a.m.	SESSION 2: USE OF TELEHEALTH IN CARDIOLOGY PRACTICE BEYOND THE COVID-19 ERA <ul style="list-style-type: none">• Recent Changes to Telehealth Regulations and Reimbursement <i>Cathleen Biga, MSN, FACC</i>• Determining a High-value Telehealth Strategy: The Payer Perspective <i>Jaime Murillo, MD, FASE, FACC</i>• Breakout Session (45 minutes)• Report Back to Full Group (30 minutes)
11:35 a.m.	Q&A AND RECAP SESSION <ul style="list-style-type: none">• Address Questions from WebEx Chat and Prioritize Next Steps <i>Ami B. Bhatt, MD, FACC and Jason H. Wasfy, MD, MPhil, FACC; (Co-Chairs)</i>
12:00 p.m.	ADJOURN

On behalf of the ACC, we are thankful to the members of the
**Telehealth: The Intersection of Technology and Health Care Roundtable
Planning Committee** for their hard work and guidance
in planning and executing this virtual Roundtable.

ACC TELEHEALTH: THE INTERSECTION OF TECHNOLOGY AND HEALTH CARE ROUNDTABLE PLANNING COMMITTEE

**Ami B. Bhatt, MD, FACC
(Co-Chair)**

Director of Outpatient Cardiology
Massachusetts General Hospital Heart
Center
Associate Professor of Medicine
Harvard Medical School

**Jason H. Wasfy MD, MPhil, FACC
(Co-Chair)**

Medical Director
Massachusetts General Physicians
Organization
Assistant Professor
Harvard Medical School

Cathleen Biga, MSN, FACC

President/CEO
Cardiovascular Management of Illinois
Chair Board of Managers, Medaxiom
ACC Board of Trustee

Edward T. A. Fry, MD, FACC

Chair, St. Vincent Medical Group
Service Line Chair, Ascension CV
Service Line
ACC Board of Trustee

John E. Brush, Jr., MD, FACC

Professor of Internal Medicine
Sentara Healthcare and Eastern
Virginia Medical School

Olivia Gilbert, MD, MSc, FACC

Assistant Professor
Wake Forest Baptist Health

Nihar R. Desai, MD, MPH, FACC

Associate Professor of Medicine
Yale School Of Medicine

Harlan M. Krumholz, MD, SM, FACC

Harold H. Hines, Jr. Professor
of Medicine
Professor, Institute for Social and
Policy Studies
Director, Yale New Haven Hospital
Center for Outcomes Research and
Evaluation (CORE)
Yale University

We are grateful to our supporter for their commitment to the
Telehealth: The Intersection of Telehealth and Health Care Roundtable.
