

# THE ACC

## YOUNG SCHOLARS PROGRAM

Interested in science?

Would you like to learn more  
about a career in cardiology?

Apply for the Young Scholars Program for the  
opportunity of a lifetime! You'll gain mentorship,  
sponsorship, guidance and recognition.

As an **ACC Young Scholar**, you can  
discover what it takes to pursue a career  
in cardiology directly from a practicing  
cardiovascular professional.  
You'll have the chance to learn about  
possible career options in the field, as well  
as the basics of investigational research.

You'll be paired with a mentor who will  
guide you through your very own research  
project. **Plus**, you'll get to attend the  
opening day of the American College of  
Cardiology's Annual Scientific Session at  
the end of the yearlong program!

AMERICAN  
COLLEGE of  
CARDIOLOGY®

Advancing Heart Care Worldwide
