MEDIA EVENTS AT ACC.20/WCC
A Media Event is considered to be an industry event and must follow the ACC.20/WCC Ancillary Event Guidelines, available online at https://dc.jspargo.com/download/acc/2020/ ancillary/ACCAncillaryGuidelines.pdf. A Media Event is defined as a news conference, product preview and/or interview that is directed to the news media where information about a company’s products, services, research findings or studies is released.

Organizations that wish to host an industry event must submit a request via the online Ancillary Event Request Website. A request must be submitted for each event. On the website, you will submit the details of the event, including date and time, title, description and anticipated attendance.

Media Events are permitted according to the following schedule:

If the event is eligible for approval, you will receive an invoice for the registration fee ($1,000, exhibitors; $250, non-profit/university). Once full payment is received and processed (please allow an additional one to five business days for payment processing), you will receive an Ancillary Event Approval Letter via e-mail. You may then contact any hotel, restaurant or entertainment venue to request function space. Any hotel you select will require that you provide a copy of the Ancillary Event Approval Letter before reserving function space for your organization. All communication from that point on will be between you and the venue, and any vendors you secure for transportation, audio/visual, food and beverage, etc. All charges for these items are the sole responsibility of the applicant.

Regardless of whether your industry event is being held in a hotel that is within or outside of the ACC block, or in any other venue, you must receive approval from the ACC to hold the event, or your event will be considered to be in violation of the ACC.20/WCC Ancillary Event Guidelines. Events planned or occurring in violation of the Guidelines will be subject to immediate cancellation or termination. The ACC will not be responsible for expenses or losses resulting from the cancellation or termination of said events. Companies with events that are in violation of the Guidelines will lose all priority points that would have been earned for participation at ACC.20/WCC and will not be permitted to hold events at future ACC Annual Scientific Sessions & Expositions.

DISSEMINATION OF NEWS RELEASES
Curtain-opener press releases anticipating science to be presented at ACC.20/WCC can be issued beginning March 16, 2020 at 8 a.m. ET; however, they must not reveal any embargoed information, and must include the date and time of presentation. Research results are embargoed until the TIME OF SCIENTIFIC PRESENTATION for late-breakers and featured clinical research. Poster and Oral Presentation abstracts are embargoed until they are posted online by the ACC or, for a small number of abstracts chosen for promotion, until the time established by the ACC Media Relations Department. The ACC reserves the right to revoke Exhibitor Newsroom credentials at any time if the embargo policy is not honored. It is the responsibility of the issuer to ensure the policy is honored.

Presentation or discussion of scientific research results at satellite meetings or press conferences prior to the scheduled Annual Scientific Session & Expo scientific presentation is forbidden.

The only exception to the above-mentioned embargo rule is closed investigator meetings for participants in the trial. These meetings must be held at ACC.20/WCC and may be held beginning March 28, 2020, provided they are held during the designated time slots as outlined in the ACC.20/WCC Industry Event Guidelines and are approved through the Industry Event Request Form approval process. Only exhibitors at the ACC Annual Scientific Session & Expo, and universities and non-profit organizations that are affiliated with or supported by one or more exhibiting companies may request permission to hold investigator meetings (visit https://show.jspargo.com/accancillary20/ancillary/ for more information).
