Visit
**ACC.org/
CVTChapter**
to learn more about
the benefits of ACC
membership.

When you make the American College of Cardiology (ACC) your professional home, you join a network of over 50,000 cardiovascular professionals dedicated to providing the highest standards of cardiovascular care. We put tools, resources and education at your fingertips that will help you succeed from training through retirement.

Membership is open to: Advanced Practice Nurses, Registered Nurses, Physician Assistants, Clinical Pharmacists, CV Technologists, Exercise Physiologists, Physical and Occupational Therapists, Dietitians, Genetic Counselors, Clinical Psychologists and Clinical Social Workers.

**Join us in our mission to transform
CV care and improve heart health.**

As a member, you can:

- Sharpen your skills with 300+ FREE educational opportunities on *ACC.org*
- Network, get involved and develop your leadership skills through participation in Member Sections and local chapter events
- Read about the latest clinical developments with online access to six *JACC* journals
- Save hundreds—even thousands—of dollars with deep discounts on ACC's digital products and live courses, including the ACC Annual Scientific Session
- Receive information updates based on your preferences, including clinical information in the Cardiovascular Team Section Newsletter, advocacy updates and more
- Improve patient care with ACC quality initiatives, including NCDR Registries and the CardioSmart patient education website and tools
