

Cardiovascular Team

MEMBER SECTION

Sample Text for Recruitment Email

CVT State Liaisons may use this email to recruit colleagues to join the ACC as Cardiovascular Team Members. This email could be coupled with an invitation to attend a chapter event for CVT Members.

Dear Ms./ Mr./ Dr. _____ :

The American College of Cardiology (ACC) recognizes how vital it is to have a diversity of voices at the table, which is why it is placing a greater emphasis than ever before on team-based care and interdisciplinary team collaboration.

The ACC's ongoing advocacy endeavors include the [2015 ACC Health Policy Statement on Cardiovascular Team-Based Care and the Role of Advanced Practice Providers](#)—which underscores the importance of the entire CV team in improving patient outcomes—and its support of legislation that would allow non-physician practitioners to supervise cardiac and pulmonary rehabilitation programs on a day-to-day basis under Medicare.

ACC membership gives you access to 300+ free educational opportunities and 20+ clinical topic hubs on ACC.org, as well as online access to SIX Journals of the American College of Cardiology. You'll also be able take advantage of deep discounts on ACC's leading digital products and live courses, including the ACC Annual Scientific Session.

With over 4,500 members, the [Cardiovascular Team Member Section and Leadership Council](#) is central to the ACC's efforts to engage all members of the CV Team—including advanced practice and registered nurses, physician assistants and clinical pharmacists, among others—in the College's strategic initiatives. As a forum for advancing the interests of the College's CVT membership, the CV Team Member Section is your opportunity to connect with your peers and develop your leadership skills.

Over 60 CV team members currently serve on national and CV Team Section-led committees—but your help is needed! Your participation in the ACC helps it better adapt to a changing field, more effectively advocate on behalf of all members of the CV team and fulfill its mission to transform cardiovascular care and improve heart health.

Take this opportunity to grow your knowledge and expand your reach. [Join the ACC today.](#)

Best regards,
